

QUANTUM BOTANICALS

Diploma Course

Course Description

The Quantum Botanical Online Diploma Course offers a loving and mind-expanding exploration of the plant world, and the nature of consciousness and quantum physics. This pioneering one-of-a-kind course will open your heart and mind in profound ways that will change the way you perceive healing, personal evolution and the patient-practitioner relationship.

The 38 Bach Flower Essences are also explored in-depth, as is elemental energetics. Learn how to cleanse receptor sites on cells, erase incorrect information from cellular memory/DNA and restore correct information with essential oil chemistry. This approach releases trauma held in the body, allowing for clearer perception and a more peaceful, present approach to life. Trauma lives on in genes through generations if information isn't erased and reprogrammed. The Quantum Botanicals Online Diploma Course provides numerous approaches to heal our relationship with the past, and increase our awareness and clarity in the present, providing the foundation for the journey of self-realisation and evolution of consciousness.

Each student is personally mentored as they progress through their studies and lay the foundation for their future practice.

INTEGRATIVE QUANTUM BOTANICALS

Diploma Course

Course Description

All plant medicine is vibrational medicine, including diet, herbs, essential oils, flower essences and homeopathic remedies that utilise the vibrational/quantum field of plants.

Learn about the fundamental science that underpins vibrational medicine, and how to engage the power of quantum and fractal potential through plant nutrition and medicine. This course combines a strong foundation in the science of quantum healing, with a deep study of consciousness; left and right hemisphere attention and processing, unconscious and collective unconscious vibrational archetypes, and mind-body healing with vibrational medicine.

The course explores healing diets, culinary and medicinal herbs, essential oils and flower essence therapy in-depth, as a profound opportunity to support healing of thoughts and emotions that hinder our path towards wholeness, peace and conscious experience of life. The course also introduces students to traditional and indigenous perspectives on the relationship between subtle energies of mind, emotions and the physical body.

Each student is personally mentored as they progress through their studies and lay the foundation for their future practice.

School Philosophy

School of Natural Medicine was founded in 2007 on the principles of pure Naturopathy, which incorporates a holistic approach to the treatment and prevention of mind-body imbalances that lead to disease.

We seek to educate students in an authentic system of natural medicine that can be traced to the teachings of Stoicism in ancient Greece, and that was incorporated into a system of medicine by Hippocrates, widely regarded as the father of modern medicine.

The first principle of Natural Medicine, as stated in the Hippocratic Oath, is 'Do No Harm.'

This core foundation is integrated with advances in the fields of nutrition, psychoneuroimmunology, heart-brain coherence, epigenetics, phytochemical research, and holistic anatomy and physiology.

Our Natural Physician Diploma program is in alignment with the World Health Organisation definition and guidelines for Naturopaths; a definition that was created through the contributions of more than 274 reviewers, including experts and national authorities, as well as professionals and non-governmental agencies.

Naturopathy is a profession that is practiced throughout the world, with Eastern and Western Europe, Scandinavia, Australia, New Zealand, South Africa, Canada, Russia, India and the United States having the highest numbers of practicing naturopaths.

Naturopathy is classified as a traditional medicine and has evolved, since ancient times, as a deeply rooted part of European natural medicinal systems.

From Europe, Naturopathy has found its way, with the founding fathers of the United States and the Commonwealth, to all parts of the world settled by those of European descent.

Naturopathy is a discipline of accumulated knowledge of effective natural therapies, diet, herbs and lifestyle in practice, and does not have a single originator. It is a part of our heritage.

We invite you to join us on one of our certification or diploma courses, and begin your journey toward creating a life out of what you love!
