

**START**

**FINISH**

If you could be any part of nature, what would you be?

If you could teach someone about the land, what would you share?

What is one way we can give back to nature if we take something from it?

What is your favorite nature word, and why do you like it?

Can you think of a time when nature taught you something?

Why do you think nature is important to stories and songs?

Why do you think it's important to learn new words?

What is one thing you could do to take care of the land?

How does the word "reciprocity" relate to friendship?

Name something in nature you would protect and why.

Can you think of a story where nature played an important role?

What do you think it means when we say, 'The land is our teacher'?

If you were in a sharing circle, what is one thing you would like to share about nature?

Why is it important to keep nature words like "meadow" or "grove"?

What do you think would happen if we lost words related to nature?

*Share a Story...*

Roll a die. When you land on a square, read the sentence and share a story.
