Depending on the size of event, we will bring on additional freelance designers to execute the event. Our freelance team works with us frequently and understands our design styles and standards.

our philosophy

Our inspiration comes from the land around us– the whimsical grasses to the native flowers and brambles. Our name reflects the land that we live on, the little piece of earth which is packed with native limestone. We recognize that we are living on Native land which belongs to the Wichita, Comanche, Kiowa and Osage tribes.

In our cutting garden we grow flowers and foliage that give our designs an organic and garden inspired look. We believe that flowers are beautiful on their own, but when thoughtfully composed can elevate an event and create a story that is unique to each couple. We believe that when we strive to emulate nature in our designs, the flowers shine to their fullest capacity. We believe in marriage + are deeply honored to be a part of the start of each one.
