

SOFTWARE OVERVIEW

We have established partnerships with these organizations to provide free and low-cost software for users in rural areas. Partners include:

WHIZZ EDUCATION

Whizz Education is an education partner accountable for learning outcomes. Guided by a wealth of live learning data from the world's first personalised, scaffolded, and adaptive virtual tutor, Maths-Whizz, we work with education stakeholders across borders and cultures to instigate sustainable changes to education and deliver accelerated learning.

LITTLE BRIDGE

Little Bridge enables children around the globe to connect and learn English together. Our unique social network helps children build important 21st-century skills - communication, collaboration, and critical thinking.

LEARNING UPGRADE

Life-Changing Education for All. Learning Upgrade's personalized online courses enable schools and organizations to close learning gaps and accelerate student growth in English, math, test prep, and job skills.
