

What to Add Before You Plant

IF YOU'RE PLANNING A
VEGETABLE GARDEN THIS
SEASON... IT STARTS BELOW THE
SURFACE.

OUR PANHANDLE
SOIL NEEDS A
LITTLE HELP
GETTING READY.

OUR GARDEN SOIL PREP ROUTINE

WHAT YOU PUT IN NOW MAKES ALL THE DIFFERENCE LATER—STRONG ROOTS,
BETTER YIELDS, HEALTHIER PLANTS.

1 *Foundational Layer*

FOREST MULCH Adds organic matter and loosens clay soil.

HAPPY FROG SOIL CONDITIONER Improves aeration and helps roots grow.

HUMIC ACID Boosts nutrient uptake and moisture retention.

GYPSUM Breaks up clay and improves drainage.

2 *Building On Top*

YUM-YUM MIX Feeds plants and soil microbes.

WORM CASTINGS Adds gentle nutrients and improves soil.

3 *At Planting*

MYKOS + AZOS Supports root growth and nutrient access.

MARINE CUISINE Provides quick and long-term feeding.

ROOT STIMULATOR Reduces transplant shock and builds roots.

4 *Finishing Touches*

MULCH Holds moisture and helps prevent weeds.

GARDEN MAX 20-20-20 Balanced fertilizer for steady growth.
