ABOUT ME

I help women rediscover their little girl within by creating environments that surround them with beauty, protect their dreams, and nurture their souls.

June Richardson

Are you searching for a speaker who empowers women to pause, reflect, and rediscover their true selves—their forgotten or set-aside dreams and desires—and inspires them to honor who they are by building lives in alignment with their deepest values?

June Richardson, founder of Ibi-Mimo Sanctuary, is a dynamic speaker, artist, and advocate dedicated to empowering women to create spaces of beauty, peace, and purpose in their lives. With an artist's eye and a deep commitment to transformation, June draws on her unique talents to inspire others to turn their dreams into reality—whether through personal growth, creative expression, or reimagining their environments.

Her journey to creating Ibi-Mimo began during a life-changing car accident that left her hospitalized—and sparked a profound reevaluation of her life and set her on a transformational healing journey, encompassing the physical, mental, and environmental aspects of self-care. Recognizing a lack of resources that addressed these interconnected needs, June founded Ibi-Mimo to fill this gap and help women reclaim their power and creativity.

Throughout her career as a senior vice president and loan officer at GuardHill Financial, June discovered that her true passion lies in helping people create better lives for themselves. Whether crafting innovative financial solutions or empowering women to embrace self-care, June's goal has always been to help others see what's possible and support them in achieving it.
