GET READY TO THROW THE PARTY OF A LIFETIME!

WELCOME TO THE SIXPENCE BAR/BEVERAGE GUIDE

Welcome to a fun step in your wedding planning process...your bar! We are passionate about creating a customizable, unique, and stress-free experience in all things, and The Sixpence bar offerings are no exception! Here's a quick guide to get you started.

The Sixpence has two general options:

- 1) ON CONSUMPTION LIMITED/OPEN
- or
- 2) PER PERSON OPEN BAR

Once you've decided which is best for you, you can select from a variation of package offerings within that structure, as laid out in this guide. For example, our per person option has 4 different packages you can choose from (no substitutions, please!), and our on consumption bar option can function off of a budget marker, consumption amount marker, or other.

Whatever is best for you, your priorities and budget, The Sixpence is passionate about making it happen. Cheers!

ON CONSUMPTION BAR OPTIONS

FULLY OPEN ON CONSUMPTION

Fully open, this model allows your guests access to anything behind the Sixpence bar, and each drink is rung in as it is ordered.

Current menus can be provided, but pricing and availability are subject to change.

LIMITED OPEN ON CONSUMPTION

****most popular of the consumption models*

A limited open bar model, you'll work with the events team to curate a hosted bar that's best for your event, and each drink is rung in as it is ordered.

Popular examples of this are:

"Hosting beer, wine and 2 specialty cocktails" or "Hosting Coca-Cola products, coffee, beer, wine, and all well spirits."

In an on consumption bar model, anything you are not hosting is available to your guests to purchase on their own in a cash bar model.

Current menus can be provided, but pricing and availability are subject to change.

CASH BAR

A cash bar model means that no beverages are hosted, and guests order and pay for their drinks as they go. This applies to alcoholic and non-alcoholic drinks (including Coca-Cola, and coffee/tea options).

A cash bar is still required to meet our minimums, and the couple is responsible for any differences if the minimums are not met.
