WHY BOOK

WITH ISHOT STUDIOS?

I know exactly what you're thinking: "Jasmine, there are a dozen other photographers in New York! What sets you apart from all the rest?"

That is an excellent question!

My style is vintage with a modern twist and still caught between romantic and sexy. Bold and classy composition using natural light, textures and sensual props.

Not to mention that Im pretty fucking awesome and I want nothing more than for you to walk out of my studio feeling like you just fell in love all over again!

I feel lucky to be able to give the gift of beauty back to others. I want to document the moments and accomplishments that make you feel good about that period in your life. I want you to feel a sense of pride and nostalgia when you pick up your album or open your folio box to see your prints.

A common question I'm asked about my boudoir photography is whether a client's images are going to end up on my website or on social media. That makes sense because I have images of other clients on these outlets, but the only images you're seeing are from women who decided they were 100% OK and signed a release.

None of my clients are obligated to have their images posted and, in fact, a large number of my clients opt to keep their session pictures private.

No matter if you're a newbie or returning client, those butterflies will always pop up! How do you release the tension and capture your authentic self?

- Rest, rest, rest. The night before, be sure to get enough sleep. Turn off the electronics, turn on a fan, and keep it dark!
- Have everything you're bringing ready and prepared. I do have a client closet and you will have full
 access to it.
- Don't be afraid to ask questions and ask for advice. Consultations are Free and I want you to be as prepared as possible.
- This might sound silly, but get in front of a mirror and practice. Move your body, see what angles you like, try out different expressions, and feel comfortable moving around!
- Opt for the professional hair and makeup artist so that you can relax as soon as you get there. Allow
 yourself to be pampered and treated before your session.

FAQ

I'm really nervous. Is that normal?

It is definitely normal to be nervous for your boudoir session. Most of our clients are nervous until the session has gone on for a few minutes. After it starts, you'll begin to loosen up.

What if I have my period?

Its ok if we shoot on day when Aunt Flow is in town. Its up to you if you want to shoot while she's visiting...If not, just be mindful of scheduling around it.

Do your collections include hair and makeup?

We do offer collections and print options separate from the booking session.

Am I allowed to bring alcohol to help loosen my nerves?

Its not necessary. My super power is making clients feel comfortable, you won't need the alcohol.

Do you provide the props + wardrobe?

Yes we have a client closet full of sizes to fit curves and other body types. If you do not utilize our client closet then we will style your session together if you need me;-)

What should I do to get ready for my session?

A few days leading up to your session, get a mani-pedi. Drink lots of water, it will help clear up your skin. If you booked the signature collection then you should come to your session bare and dry hair.

Can I bring my husband/boyfriend/wife/girlfriend?

Yes, we shoot couples as well and can help you prep for those sessions.
