

The Paige Residence

Client Details

The Paige Family is excited to transform their new home into a modern sanctuary filled with warmth, style, and a touch of dramatic flair. They envision a space that balances bright, airy rooms with cozy, moody accents, creating an inviting retreat for relaxation and entertaining. Thoughtfully designed to reflect their unique style, each room will offer a blend of comfort and contemporary elegance. This home will be a welcoming haven for the Paige Family as they settle in and create lasting memories in the years to come.

Design Vision: This project will balance two distinct design aesthetics—light and airy versus dark and moody—to create a sophisticated, layered residence that feels both open and inviting, as well as intimate and cozy. Each style will be strategically implemented across different areas of the home, highlighting the strengths of each approach to create spaces that are both timeless and dynamic.
