

ROADMAP & PROCESS

PHASE 1 - DISCOVERY CALL

Here you'll schedule a quick call with our internal team to:

- Learn more about your office and review your staffing needs
- Discuss what's most important to you when partnering with an agency
- Answer your questions and walk you through how our process works

Est. 30 minutes or less

PHASE 2 - ACCOUNT SETUP & ACTIVATION

Once we've learned more about your office and staffing needs, we'll move into setting up your account and preparing you for success on the Oasis platform.

You'll receive a link to create your office profile and enter your key details. Once that's complete, our admin team will take over to activate your profile. You'll also have access to our support team and demo videos to guide you through posting and navigating the platform whenever needed.

Est. 20 minutes or less

PHASE 3 - BOOK A PROFESSIONAL

Once your profile is activated by our team, you'll be able to start posting shifts directly to our network of dental professionals.

When candidates apply, you'll have access to their profiles and can communicate with them through the platform. From there, simply confirm the professional you'd like to bring into your office. It's that easy.

PHASE 4 - QUALITY ASSURANCE & FEEDBACK

We want to ensure you feel confident working with high-quality dental professionals. Our team will check in, but you'll also be able to rate your professional directly through the platform.

Your feedback helps us maintain our standards, improve your future matches, and teach our system your preferences when booking. Together, we'll continue building a trusted team you can rely on whenever coverage is needed.

PHASE 5 - ESTABLISH YOUR TEAM

Offices and dental professionals typically prefer consistency. We encourage you to build relationships with a few of our trusted professionals so you can request the same providers when needed. This creates a smoother experience, your team will know what to expect, how your office runs, and help your day flow seamlessly.

PHASE 6 - ONGOING SUPPORT & PARTNERSHIP

Our team is here to support you even after your first shift. We'll check in to ensure your experience is seamless, help you find additional coverage when needed, and answer any questions along the way. You'll always have access to our support team and resources as you continue posting and growing with Oasis.
