

Walters Hospitality BLM Statement for Social Media

At Walters Wedding Estates, we stand in solidarity with the Black community and support our employees, engaged couples, and our vendors in the effort to end discrimination.

We are committed to Creating Exceptional Experiences and Life-long Memories for everyone and that mentality carries over into our beliefs as a company and as people. We acknowledge the struggles and the pain that the Black community has and continue to endure, and we actively condemn all acts of racism and discrimination. Our arms are open to any and all, we stand with you in hopes of making a change.
