meet LIN

Hi! I'm Lin Pernille (*pur-NIL*), the photographer, videographer, and educator behind Lin Pernille LLC. I'm based in the Hudson Valley of NY, just north of New York City and North Jersey, but I'll travel just about anywhere for a wedding!

I fell in love with wedding photography when I shot my first wedding at 18 years old.

I quickly realized that weddings combined every genre of photography that I loved: photojournalism, still life, portraiture, fashion, and beauty. When I was 20 years old, during my junior year in college, I knew that I had found my passion and decided to officially form my photography & video company. Since then, I have been lucky enough to capture countless weddings & events of a wide variety of cultures, sizes, and styles.

I'm very passionate about being a small business owner (you can always find a new business book on my nightstand!) and I love sharing that passion with others any chance I get. Every year, I teach workshops & courses to photographers & small business owners of all levels.

When I'm not shooting, editing, or teaching, I'm probably trying out a new keto recipe, redecorating my house, binge watching a docuseries, trying to beat a PR in our home gym, or hiking a local Hudson Valley trail with my husband Corrado.

MY MISSION

There's no greater honor than to be able to photograph a couple's happiest day and for that reason I take my job very seriously. I will always strive to capture the mood, style, and all of the important moments of your day to the best of my abilities, while being attentive yet unobtrusive, and making you feel comfortable and calm throughout the whole day.

My goal is to get to know my couples throughout the planning process so that I can translate their personalities and vision for their wedding through the photos & video.

Beyond delivering clean, timeless, vibrant photos that my couples (and their families) will enjoy for many generations, my mission is to make every part of the experience, from the planning process to the wedding day, as seamless and stress-free as possible so that you can relax and soak in every moment of your wedding day, knowing that all of the photography and video details are taken care of.

I limit the number of weddings I shoot each year so that I can give each couple the time, care, and attention that they deserve. My goal is for you to feel like my *only* clients – if you ever have a question or concern, please know that I'm only a call, text, or email away!

I'm very grateful to be able to do what I love and I can't wait to share more special days with more unique couples. Feel free to connect with me on social media – I love becoming friends with my clients!

What does it mean to hire a “luxury” wedding professional?

THE LUXURY DIFFERENCE

- ***Bespoke Treatment.*** Every wedding is different and every couple has different preferences, needs, and wishes for their wedding day. All packages are fully customizable to best fit exactly what you're looking for. My goal is always to capture my couples' unique style, personalities, and vision for their wedding day through their photos and videos.
- ***Experience.*** After photographing 200+ weddings over the past 11 years, it has given me a deep understanding of weddings and an unparalleled level of preparation. Rest assured that I have experienced every scenario imaginable and I am confident and comfortable working in any circumstance that may arise on your wedding day.
- ***Professional Equipment.*** I'm constantly upgrading my equipment collection to include the most current, top-of-the-line equipment, including full-frame mirrorless cameras, pro-level lenses, and high end editing software. I have a meticulous and careful backup system to ensure that all of your files are treated with the care and importance that they deserve.
- ***Attention to Detail.*** Thanks to my Type A personality, I'm constantly looking for the best possible way to capture an image, paying attention to the most flattering lighting and angles, and keeping an eye out for any distractions that should be removed – both on the day of the wedding and during the editing process.
- ***Individualized Attention.*** My business has always been based on a “high value, low volume” model so that I can be approachable and easily accessible to every client. Rather than viewing my clients as a “transaction”, I always strive to have a “human” relationship with my clients, with empathy and kindness.
- ***Client Experience.*** It's important to me to provide you with a thorough and enjoyable client experience, and I'm always looking for ways to surprise & delight you throughout the process. Leading up to the wedding day, I offer lots of guidance and preparation to ensure that you have the best wedding day possible.
