## Meet the Founder & Principal

We know that combining stunning beauty with flawless functionality creates verdant, award-winning spaces.

Hello, I'm Melinda Mandell, founder and principal designer of Melinda Mandell Interior Design, serving clients in the San Francisco Bay Area. I established MMID with a unique approach to interior design founded on color, beauty, historical precedence, and precision. The result is vibrant spaces that are works of art as unique as each client.

We believe that our lives are lived in the "and" moments of life: joy and grief, wins and losses, change and consistency. Every design is meticulously curated to serve you and the nuances that come with all the challenges and gifts life offers us.

A decade later, our penchant for creating unapologetically beautiful spaces has resulted in multiple design awards and a reputation for flawless execution. As experienced interior designers, we love combining each client's style with our keen ability to ground a space in purpose, beauty, and art. Our designs create homes where our clients can truly thrive.

Let's create a space that serves as a foundation for your beautiful life.
