SEE YOUR PHOTOS COME TO LIFE

Create your family heirloom

I love designing albums and have taken a number of years to select the best suppliers and formats for you. I now offer a range of albums to suit all tastes and budgets which you can find in the online store of your wedding gallery which are to be designed by you. However, my bespoke and luxury album design service is for Queensberry albums which are not included in the online store but showcased here in this brochure. Ranging from matted albums through to digital photo albums, these albums are all made using the finest leathers and art papers .

The purpose of my bespoke album design service is to tell the story of your day using a mixture of both colour and black + white images including detail shots, portraits and informal reportage images in your individual design, printed in silver-halide onto your very own bespoke album - hand made by skilled artisans in New Zealand. Album design is included in the price (alternatively, you can try before you buy, see FAQ section below for more info).

Take a browse through the album photos and prices below or if you're local to Chichester you are welcome to drop in and view my Queensberry Duo sample album. Alternatively, I can show the album to you over a video message.

Queensberry Studio Book

THE ULTIMATE IN CONTEMPORARY PHOTO DESIGN

Minimalist and versatile with a real modern feel to it. This album really is unique in it's own right, in the style of a coffee table book, your photos are printed directly onto the pages, but these aren't just normal pages, these are textured, beautiful and thick fine art papers. I truly believe these books are well suited to the arty and creative types, they have a more relaxed vibe to them and even an almost french, authentic or vintage feel about them. With every detail of every silver-halide-printed image almost embossed into this textured tintoretto paper, it makes this equally special to the Duo album and the quality, craftsmanship and attention to detail is second to none.

Every album has a bespoke design and I work with you to create the perfect album for YOU.

READ ON TO SEE WHAT CLIENTS THINK OF THEIR QUEENSBERRY ALBUMS

"Our album arrived on Saturday and is absolutely out of this world. It has instantly made all our friends very jealous of their standard wedding book with standard wedding photographs inside! We gave our relatives and wedding party small copies of the album - this was the icing on the cake and much recommended, it's so good we are going to order more!"

The whole experience with Nicci has been faultless from start to finish, we can't recommend her enough."

- David & Ruth on receiving their 14x10" Queensberry Duo album and digital copies.

"OMG!!! I absolutely love it. I cannot thank you enough. It's wonderful, captures the day so lovely. It's just PERFECT. THANK YOU!!! Best album ever."

- Amanda & Sal, 14x10" Queensberry Duo

"This is sooooo different, the textured paper is unreal, we love it. Our photos look beautiful and the whole album is just so unique. We love the way you designed this Nicci, it has a real modern edge to it yet feels authentic with the textures and vintage leather cover. We cannot thank you enough."

- Lydia & Ed, 12x9" Queensberry Studio book

"When we received our Queensberry Duo album we were blown away, it's of amazing quality and the individual design touches to each page just made it extra special. We have even shown other photographers and printers in the hope of creating something similar from photos of a previous family wedding and all have remarked on how fabulous it is. Thank you so much Nicci for making our day so perfect and recording memories that we can treasure forever."

Your album questions answered...

DO WE CHOOSE OUR ALBUM PHOTOS?

I don't ask for a list of photos from you for the design as this would not only be time consuming for you but I know which will flow together in a layout making it easier for me to design without a full extensive list. What I do ask is that you just tell me your 5-10 absolute favourite images to have as the large main feature photos in your album, and if possible any that you would rather not be included at all - you know, the plus ones, the guests you just had to invite to keep certain family members happy... and so on. I'm not to know who these people are so it saves a lot of time if you let me know the image numbers first.

HOW DO WE CHECK THE DESIGN AND EXPLAIN ANY CHANGES WE'D LIKE?

Once the album design is complete, you will receive a link to view this, here you can easily add notes online to each page advising me of images you'd like removed, note image numbers which you'd like to use to replace current ones or as additional, you can also let me know if you'd like me to change the layout of a page or remove one. It's as simple as that - once you press send, I will receive your notes and make the changes. The album will not be ordered until you are happy with your design.

HOW MANY TIMES CAN WE MAKE CHANGES??

For obvious reasons I need to have a limit here. I allow up to as many amendments as you like in one change submission. You can submit your changes up to three times.

WHEN WILL WE GET OUR WEDDING ALBUM?

From your confirmation for design and to send to print, I ask that you then allow up to six weeks for these bespoke handmade albums.

CAN WE ORDER A PARENT ALBUM?

If you require parent or handbag albums which are duplicates of your main album then these can only be ordered at a reduced amount at the time of your main album order. You can purchase a parent album separately with it's own design although this will incur a second design fee. Alternatively you can purchase a small digital copy book as detailed in the pricing above.

CAN WE ORDER AN ALBUM AT A LATER DATE?

Of course, I actually recommend clients purchase their album after their wedding enabling you to decide which album suits YOUR photos best! I also believe it takes a few months to decide on favourites as you start to notice more and more in your photos. I keep your photos for a minimum of three years, after this it is still possible to purchase an album, however, you may be required to supply the images.

HOW MANY PHOTOS ARE IN AN ALBUM?

Every wedding is different, as is every album unique. I design all of these albums to suit each couple and their photos. The amount of photos included tends to fall between 50 and 200 images depending on the size of album, the amount of images, pages and the design style.

WE CAN'T AFFORD AN ALBUM, WHAT CAN WE DO?

Why not add Adorlee Gift Vouchers to your Wedding Gift list, or as an anniversary gift, you can tell me a limit and once you've reached that amount I can let any future enquiries know that you have enough! I also offer *Try Before You Buy* - a free 2-page design, or if you would like to see a full design of your wedding before committing just pay the design fee of £250, if you decide to purchase the album then the £250 will be deducted from the album price. Album prices will be held for 6 months after I design your album.

WHEN DO WE NEED TO PAY?

The £250 design fee is due before any work is commenced. Once you have given me confirmation that you are happy with your full design, I ask you to sign it off and pay the remainder of your balance. Once both of these are received, I can then place the order.

NB: the £250 design fee is included in all album prices quoted in this brochure, it is not an additional fee. This means once this fee is paid, you can take £250 off your album price.
