## WOMEN'S EMPOWERMENT PROGRAM

---

Our Women's Empowerment Program is dedicated to uplift, educate, train, and enable women, men, and youth to have strong, healthy, and sustainable lives. Women's Empowerment Program is aimed to improve families' livelihoods and sustainability.

WEP has 12 centers throughout Africa, which reach women, men, and youth.

On average each center has over 40 trainees graduating each year.

Many of the trainees go on to start their own businesses and change the lives of their families. This provides sustainability for their families and community.

Each community's training center offers skills that benefit the greatest need of their community.

WEP's training centers work hard to have a variety of skills to offer and continue to expand.

WEP Offers:

- Tailoring & Embroidery
- Hair Dressing & Cosmetology
- Catering & Baking
- Computer Skills
- Book Making
- Crafts & Jewelry Making
- And much more to come...

## MAJOR MILESTONES

In July 2013, the vision for empowering women was first launched in the Buzzi community, becoming the launching pad for all WEP training centers.

---

In March 2016, we built our first Women's Empowerment Training Center in Buzzi, Uganda.

---

Since WEP was started, over 325 individuals have gone through training programs. Each individual has affected their community in many ways.
