How i works

We're here to help you every step of the way and here's our guide to making sure each detail of your day is seamless...

Enquire

We will send you our menus which will provide you with an understanding of our style. We will propose a time to have either a call or meeting in person, whichever suits.

Meet

This is an opportunity for us to discuss your plans, answer any questions you may have which will give us enough to put together menu options for you to choose from. To secure the date of your event we will send over a contract and this will require a deposit.

Taste

We invite you to our private tasting room where we will serve up a sample of your chosen dishes. Tasting sessions are ± 25 per head and we can serve up to 6 people.

Plan

No later than 1 month prior to your event we will send over a wedding pack with all of the chosen details and menus. Your final invoice will be raised and, no later than three weeks prior to your event, we require the final payment.

Enjoy

At this point we take over so you can sit back, relax and enjoy your day knowing that everything is in safe hands.

atering

We offer 3 price points for our events. We've got some menus for you to look at so that you can understand our style, but we love to work with our clients on a bespoke basis. Come along for a chat and we can create something perfect for you within prices that work for you.
