# BUTTER YELLOW

Butter yellow is having a major moment, and it's the perfect hue to bring sunny sophistication to your wedding day! This creamy, dreamy shade — part shortbread, part sunshine — is stealing the spotlight on Spring/Summer 2025 runways, and it translates beautifully to weddings. Whether you lean toward maximalist details or prefer a more understated vibe, butter yellow is the ultimate crowd-pleaser, for a celebration that's right on trend.
