Advanced Features

LED Light Bar
Designed with LED light bar on the sides of chassis to provide visual cues to meeting room availability.

SignWave Widget
SignWave connects to your property EMS or PMS software reliably and securely via the cloud-based Breeze Digital Signage system.

CE | FCC | RoHS Certified
SignWave is certified and meets all requirements for PC devices. It meets CE, FCC and RoHS standards for low voltage devices.

Installation Highlights

Built-In PoE+
Built-in Power-over-Ethernet simplifies installation and eliminates messing with 3rd party add-ons, assuring you of the simplest yet most reliable installation possible.

Slim Chassis Depth
SignWave TD10 comes in an industrial-grade composite housing with a slim depth of only 1.1" depth from the wall. The housing is self-contained and only needs a PoE+ connection for operation
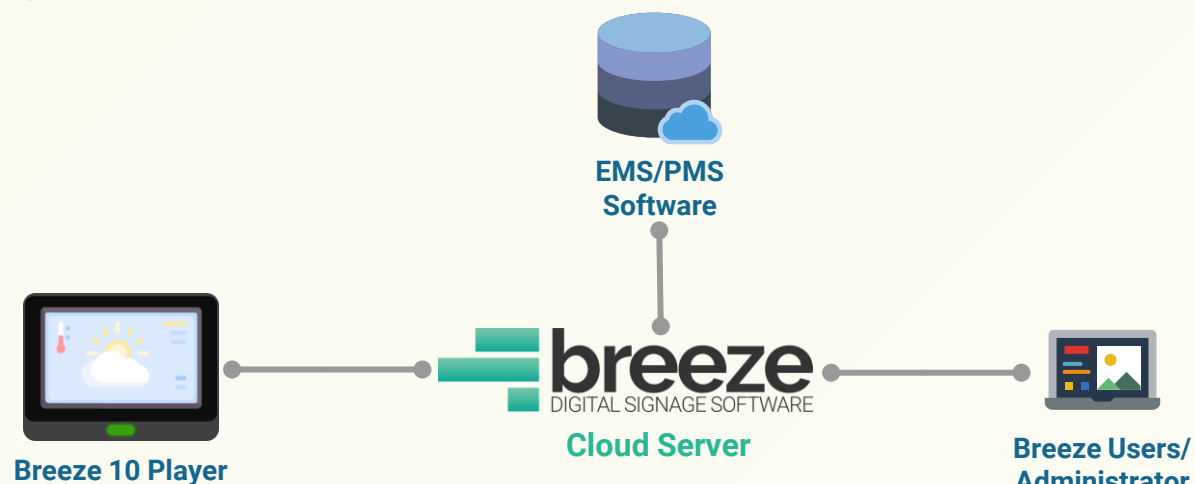

Glass Surface
SignWave includes a VESA mount wall plate and a surface-mount kit to secure it to any wall surface, including glass, keeping the PoE+ connection and mounting tabs hidden from view.
