

2022-2023 WEDDING COLLECTIONS

Thank you so much for considering us for your wedding day!

I have created a wide variety of wedding collections to better fit most budgets in the hopes of providing beautiful photography for everyone.

Our Style and Philosophy

I love weddings, I love photography, and most importantly I love my couples! My work is my art, and a reflection of both myself and my company, therefore I pride myself in presenting absolutely beautiful images to my clients.

I have spent my entire career perfecting my craft, always incorporating the latest trends into my photography style, mastering both natural light and flash photography techniques, and pushing myself to achieve perfection. I have passed all of my knowledge on to my son and full time business partner Michael who works with me on your wedding day and during the post production workflow. I'm very proud and impressed with his photography skills and talent. Michael is also available to photograph intimate weddings at a slightly lower price point for couples on a restricted budget.

Our style incorporates a combination of candid and classic photography with an emphasis on capturing the little details and special moments of the day. We fully document your day with both posed and candid images, in addition to paying special attention to friends and family. Every couple is unique, therefore we adjust our approach and style accordingly for each wedding. Some couples love ethereal images with washed out backgrounds, others love vibrant images with crisp and clear backgrounds. Many couples love a combination of both styles, which is my personal preference. I love variety!

I have photographed over 1500 weddings here in beautiful Southwest Florida. My many years of experience have resulted in the ability to work fast and efficiently, and I can capture a lot of portraits in a short amount of time. I'm also able to direct a crowd with respect and courtesy. We are professional, friendly, and work well under pressure. I have also learned over the years what my clients value the most which are family portraits, beautiful couple portraits with a wide variety of poses, lots of candid, and most importantly, time to enjoy and fully experience their wedding. I schedule a consultation with my couples prior to their wedding to get to know them on a personal level, discuss their vision for their wedding, and carefully plan their photography schedule resulting in a relaxed and enjoyable wedding day.

After your wedding day Michael and I spend an above average amount of time on our post production workflow. Every single image is manually edited and enhanced as we don't rely on batch processing and presets. We spend anywhere from 2-10 minutes per image on retouching. **I'm a perfectionist, and I strive to deliver absolutely beautiful images to my clients that they genuinely love!**

Our Editing

Editing is the art of taking a beautifully captured image and making it even more beautiful by adjusting color, density, contrast, white balance, highlights, shadows, vibrance, saturation, sharpening, noise, and cropping.

All of my collections include editing and enhancement of each and every image. Your images will also be perfectly organized and in chronological order.

Our Retouching

Retouching is the art of manipulating an image to change the appearance of either a subject or object in the image.

***Basic Pricing** in our collections is perfect for couples who either embrace their natural appearance, or do not have skin concerns that they would like retouched in their images.

For couples who are interested in retouching, we offer two pricing options.

***Regular Pricing** includes light facial retouching for the couple in all of the posed portraits including family, wedding party, and couple portraits. Ideally, the images that are most likely to be shared and printed for display are retouched.

***Premium Pricing** includes light facial retouching for the couple in every image including all candid in addition to the posed portraits.

Light facial retouching includes:

Slight pore smoothing for ladies to soften open pores

Razor burn/cut removal for gentlemen

Non-permanent blemish removal (severe acne subject to additional fee)

Wrinkle minimizing (removal subject to additional fee)

Shine minimizing (especially beneficial during hot weather months)

At our discretion we also include complimentary additional retouching for portraits as follows:

Bruise and bug bite removal on arms and legs

Removal of small spots or stains on wedding attire

Bra strap or tape removal (for the occasional images where they sneak out, I'm of course watching for this while I shoot)

Removal of the occasional photo bomber in the background of beach portraits

Great care is taken during the capturing of your images to minimize the need for retouching. Often there are things that are out of our control that we can't avoid when we shoot, such as a very busy beach, people sweating through their clothing, or the wind blowing hair across people's faces. We do our very best to work around these conditions.

Most online retouching companies charge a flat rate of \$5 to \$10 per image, even for very simple requests that might only take a minute or two. Due to the fact that Michael and I are both extremely fast retouchers, we are able to include retouching in our collections at a very nominal per image rate averaging between \$1 and \$3. 100 of your favorite images sent to a retouching company might end up costing \$500-\$1000, whereas 100 images retouched within our collections only costs \$100-\$300.

Retouching for friends and family and extensive retouching would be available for a nominal fee. Extensive retouching includes, but is not limited to, ill-fitting attire, hair, wrinkle removal, hives, blotchy skin, severe acne, sweat stains, body slimming, goose bumps, tattoos, tan lines, sunburns, head swapping, eye glass glare, subject removal, beach debris cleanup, and exit signs. We are able to accommodate most requests, however in the event of very difficult, unusual, or time consuming requests, we might recommend for you to work directly with an online retouching company.

Couples who have chosen our Basic Pricing are always welcome to contact us to have their favorite images retouched following their wedding.
