# *Congratulations!*

---

*You said yes!*

In the whirlwind of congratulations, you've begun planning for one of the biggest days of your life, your wedding day. Twenty years from now, you'll want to remember your day just like it was yesterday. We're to help you create unique, timeless and intimate memories for you to look back on as you carry on your lives together. Remember to have fun, and enjoy the creative process of planning your dream day.

A person is standing on the edge of a dark, jagged rock formation on the right side of the image. A white, hand-drawn style arrow curves from the left towards the person. The background is a vast, hazy landscape of mountains and valleys under a pale sky.

*Hi, I'm Chris*

Thank you for considering me as your photographer! I've been photographing weddings and couples now for over 15 years. The Carolinas are home, but I've traveled all over the world documenting the love of my couples. I am an adventurer at heart and my love for the outdoors is portrayed through my photographs. I love it all from the mountains to the sea. I would love the opportunity to work with you on your wedding day to create real intimate moments for you to cherish forever. My goal is always the same: to capture love in the most natural and organic way possible. I want you to feel comfortable in front of the camera, look your absolute best, and walk away with stunning images that tell the full story of your wedding day.

# Engagement Session

An engagement session is a great addition to your wedding package. Not only will you walk away with beautiful images for save-the-dates, invitations, and keepsakes, but it also gives us the chance to connect and get comfortable working together (yes, you're officially my models!). I tailor my approach based on how each couple naturally interacts in front of the camera. And unless you're a professional, being photographed can feel a little unfamiliar at first. The good news is that by the end of your session, those nerves tend to fade, and you'll feel much more relaxed and confident in front of the camera.

REGULAR PRICE: \$550  
ADD-ON PRICE: \$450

**THIS INCLUDES:**  
1-2 HOUR SESSION AT A LOCATION OF YOUR CHOICE  
PROFESSIONAL PROCESSING, ENHANCING & RETOUCHING  
ONLINE GALLERY WITH DIGITAL DOWNLOADS

# Bridal Session

This session is all about the bride—no groom required—captured in your wedding dress, usually 1-2 months before the big day. It gives us the freedom to create stunning portraits during the best light, without the time constraints of your wedding timeline. It's also the perfect chance to take your full wedding look for a “test run” ahead of the day. By the end, you'll have a collection of timeless, beautiful images for you and your fiancé to cherish. *PRO TIP: Schedule your session at the same time as your hair and makeup trial to make the most of your look!*

REGULAR PRICE: \$500  
ADD-ON PRICE: \$400

#### THIS INCLUDES:

1-2 HOURS OF SHOOTING TIME  
PROFESSIONAL PROCESSING, RETOUCHING + ENHANCING  
DIGITAL DOWNLOAD OF SESSION IMAGES

# Frequently Asked Questions

## Why should I choose you as my photographer?

There are lots of things to consider when choosing your photographer. First, I would make sure you truly love the work produced. This is why most photographers have a portfolio website to display their work. Use it, dissect it, love it. Every photographer has a unique style that represents them as a person and as a brand. I view myself as a storyteller. I use a modern & artistic approach to composing images to tell the story of your day and the personalities of you, your bridal party & your guests. I love capturing the candid "feel good" moments between my subjects. I try to stay away from those "Everybody look at the camera" photos (with exception to formal group portraits of course!).

## Why is wedding photography so expensive?

There are many costs associated with running a business. However, you will find my pricing is set a little lower than area photographers. You can view a more extensive price breakdown on my pricing guide. But here's a little idea. On average, each wedding of 8 hours yields around 1200 images, 2.5 images per minute. Each image, goes through processing, enhancing and color correction, to ensure you receive the highest quality image possible that is optimized for printing. Say I spend an average of 1 minute on each image. That's 1200 minutes. 20 hours of editing on top of the 8 hours of shooting... You get the idea...

## What kind of equipment do you use? Do you have backups?

I update my Canon equipment yearly to ensure I use only the highest quality available. I use high-quality, fast, prime lenses to create stunning bokeh and perform flawlessly in a variety of lighting conditions. I carry backup camera bodies as well, in case one were to fail. As well as stockpiles of memory cards, lighting equipment, hard drives, etc.

## What kind of packages do you offer? Are they flexible?

I offer a handful of wedding collections, as well as a la carte options to ensure you're not paying for anything you don't want or need. Don't see a collection that fits your needs? Build your own package by selecting the base package along with any add-ons you require!

## Do you offer partial coverage?

I don't typically do partial coverage. In some cases I will make an exception, if the event is on an uncommon date (ie. not Saturday, off-season, etc). I like my images to tell the story of your wedding day and I find that hard to do with limited coverage!

## Who is shooting my wedding?

You're talking to him! It's just me, Chris Zachary. I can do it all. I do offer a second photographer option as an add-on, but in most cases, I find it unnecessary. When would you need a second photographer, you ask? If your wedding or wedding party is exceptionally large (more than 200+ guests, more than 12 in the bridal party, etc) or if there are large distances between the "getting ready" locations of the bride/groom and ceremony/reception, I would recommend a second. I will work with you on a timeline to ensure I have adequate time to cover every individual and detail in your wedding.

## Do you shoot Engagement Sessions?

Absolutely! In fact, I always recommend engagement sessions to my clients. Not only are they one of my favorite sessions to shoot, but it gives us a chance to get acquainted from a photographer/client stand-point. Some people are really comfortable in front of the camera, others are not. I adjust my shooting style based on this to ensure the images are natural and represent who you are. But most of all, I want you to feel comfortable in front of my camera. Getting these anxieties out of the way before your wedding day can be a big benefit. Engagement sessions can be added to your wedding package for a modest fee.

## How many images will we receive from our wedding?

There are many factors that contribute to this answer, like the length of the wedding, number of locations, number of guests, etc. However, on average, I deliver around 1000-1200 images.

## When will we receive our images? How do we receive them?

I send out a preview gallery a few days after your wedding or session. Full galleries will be delivered 4-12 weeks after your event depending on the season. 1-2 week turnaround for albums once image selection is complete. Image files are available to download via your online gallery. You also have the option to purchase a USB drive of all your session images.

## I want to show all my family & friends our wedding photos!

That's how your online gallery is set up! We give you the access code, and you can share it with anyone you'd like! Prints and products can be ordered directly from the gallery. Or you can view the images in a beautiful full screen slideshow! Every couple will receive a promo code for 15% off prints & products valid for 3 months!

## Do you give full rights to digital files, so we may make prints of our own?

If your package includes, or you purchase the digital files, you will be provided with a Print Release Form giving you rights to produce an unlimited number of prints from the provided media. This release is for personal use only, not for commercial application.

## What labs do you use for Albums, Packaging & Prints?

I offer only the highest quality, eco-conscious, handcrafted products to go with your wedding or portrait session. Albums and Printing are from Millers Lab. If you choose to purchase an album with your package, you can choose from a wide variety of materials, sizing, etc.

## Your website says you are based in Wilmington, NC, Do you travel?

Absolutely! In fact, I love to travel! I'm available for local, domestic and international travel. My travel cost is additional to your package price. If I must stay overnight, I'll invoice for a moderate hotel stay. All airfare and baggage fees are additional to your package, as well. I don't charge any travel fees for weddings within North and South Carolina!

## Do you offer film photography?

I do! I actually started on film many years ago, and I still shoot it as much as I can. Nothing beats the quality of some Portra 160 (my person fave) or a classic Ilford black & white. Film add-ons are billed per roll and can be added to any package.

## Do you offer video services?

Yes!. My wife, Bee Young, operates a photography/videography company Wild Honey Photography NC. We team up to offer all inclusive Photo + Video packages. Not only is this more affordable and convenient, but since we work together all the time, you'll feel comfortable knowing your media coverage team will operate seamlessly with one another. If full day videography is not in the budget, I do offer a ceremony video/audio option as an add-on.

## How do we reserve you for our wedding?

In order to reserve your wedding date, you must have a signed contract on file and put down a 35% deposit on your package. The entire booking process is done online and a portal is created for you to view/modify your package, review our contract and make payments. The final balance is not due until your wedding date, but you are able to make payment towards your balance at any time.

## Do you shoot anything other than weddings & portraits?

Yep! I have shot events for various firms and businesses, birthday parties, bridal showers, etc. I try to squeeze in some family portrait sessions throughout the year as well. I also do a lot of traveling, you can view and purchase prints from my travels on my print store, [https://chriszachary.zenfolio.com/chris\\_zachary](https://chriszachary.zenfolio.com/chris_zachary).
