meet LIN

Hi! I'm Lin Pernille (*pur-NIL*), the photographer, videographer, and educator behind Lin Pernille LLC. I'm based in Hudson Valley, NY, just north of New York City and North Jersey, but I'll travel just about anywhere for a wedding!

I fell in love with wedding photography when I shot my first wedding at 18 years old. I quickly realized that weddings combined every genre of photography that I loved: photojournalism, still life, portraiture, fashion, and beauty. When I was 20 years old, during my junior year in college, I knew that I had found my passion and decided to officially incorporate my photography business. Since then, I have been lucky enough to capture countless weddings & events of a wide variety of cultures, sizes, and styles.

I'm very passionate about being a small business owner (you can always find a new business book on my nightstand!) and I love sharing that passion with others any chance I get. Every year, I teach workshops & courses to photographers & small business owners of all levels.

When I'm not shooting, editing, or teaching, I'm probably trying out a new keto recipe, redecorating my house, binge watching a docuseries, or hiking a local trail with my fiancé Corrado.

MY MISSION

There's no greater honor than to be able to photograph a couple's happiest day and for that reason I take my job very seriously. I will always strive to capture the mood, style, and all of the important moments of your day to the best of my abilities, while being attentive yet unobtrusive, and making you feel comfortable and calm throughout the whole day.

My goal is to get to know my couples throughout the planning process so that I can translate their personalities and vision for their wedding through the photos & video.

Beyond delivering clean, timeless, vibrant photos that my couples (and their families) will enjoy for many generations, my mission is to make every part of the experience, from the planning process to the wedding day, as seamless and stress-free as possible so that you can relax and soak in every moment of your wedding day, knowing that all of the photography and video details are taken care of.

I limit the number of weddings I shoot each year so that I can give each couple the time, care, and attention that they deserve. My goal is for you to feel like my *only* clients – if you ever have a question or concern, please know that I'm only a call, text, or email away!

I'm very grateful to be able to do what I love and I can't wait to share more special days with more unique couples. Feel free to connect with me on social media – I love becoming friends with my clients!

What does it mean to hire a luxury wedding professional?

THE LUXURY DIFFERENCE:

- ***Bespoke Treatment.*** Every wedding is different and every couple has different preferences, needs, and wishes for their wedding day. All packages are fully customizable to best fit exactly what you're looking for. My goal is always to capture my couples' unique style, personalities, and vision for their wedding day through their photos and videos.
- ***Experience.*** After photographing 250+ weddings over the past 12 years, it has given me a deep understanding of weddings and an unparalleled level of preparation. Rest assured that I have experienced every scenario imaginable and I am confident and comfortable working in any circumstance that may arise on your wedding day.
- ***Professional Equipment.*** I'm constantly upgrading my equipment collection to include the most current, top-of-the-line equipment, including full-frame mirrorless cameras, pro-level lenses, and high end editing software. I have a meticulous and careful backup system to ensure that all of your files are treated with the care and importance that they deserve.
- ***Attention to Detail.*** Thanks to my Type A personality, I'm constantly looking for the best possible way to capture an image, paying attention to the most flattering lighting and angles, and keeping an eye out for any distractions that should be removed – both on the day of the wedding and during the editing process.
- ***Individualized Attention.*** My business has always been based on a “high value, low volume” model so that I can be approachable and easily accessible to every client. Rather than viewing my clients as a “transaction”, I always strive to have a “human” relationship with my clients, with empathy and kindness.
- ***Client Experience.*** It's important to me to provide you with a thorough and enjoyable client experience, and I'm always looking for ways to surprise & delight you throughout the process. Leading up to the wedding day, I offer lots of guidance and preparation to ensure that you have the best wedding day possible.

THE VALUE OF WEDDING VIDEOS

We all know that wedding photography is a *must*. In the past, wedding videography has been seen as more of a “luxury”, but in recent years, it’s become more essential to include it in your wedding budget for several important reasons:

VIDEO CAPTURES WHAT STILL PHOTOS CAN’T

Photography captures all of the formal, timeless images you need to have from your wedding day – posed portraits of the two of you that you can hang up on your wall, photos with your bridal party, and family portraits you can share with future generations.

But there are several things photography can’t capture that only video can. Still photographs can’t capture audio, mannerisms, and motion. A video allows you to see your dad’s lip quivering as he walks you down the aisle, tears well up in your partner’s eyes the first time they see you on your wedding day, your interactions with each other as you’re taking portraits, your veil blowing in the wind, or a slow motion kiss.

A video will remind you of all the sentimental things that were said on your wedding day. You’ll be able to hear your voices crack as you read letters from each other, the applause from your guests when you’re officially pronounced married, the tears as you say your vows, and the laughter during the reception speeches.

AN EXTRA SET OF EYES AND EARS

No matter how much you try to be “present” on your wedding day, there will inevitably be moments you aren’t able to witness. Our job is to capture all of those real, candid moments that you might have missed (or forgot even happened!) so you can relive every special moment of your wedding day for years to come.

ABSENT LOVED ONES

Hopefully you are able to have as many of your loved ones, family members, and friends with you on your wedding day, but unfortunately, things do happen. Maybe you have family overseas, a relative is in the hospital, or maybe you had to cut your guest list short because of venue restrictions. Having a wedding video will allow you to share it with loved ones wherever they are in the world so they can watch it and experience the entire day as if they were there in person.

WEDDING VIDEOS AREN'T WHAT THEY USED TO BE

When you first think of a wedding video, you may think of the long, uncurated wedding videos from the 1980s, with 2+ hours of unedited footage. Modern wedding videos are much more curated and artistic. The most popular option is a Highlight Video, which is a 4-6 minute video that combines edited footage, music, and the best audio clips from the day, so you can relive all your favorite memories in a “short and sweet” video. If you prefer to see all of the important moments of your day in their entirety, a Documentary Edit is a longer 50-80 minute edited video.

OUR APPROACH TO WEDDING VIDEOGRAPHY

Your wedding day shouldn't feel like a movie set.

Our top priority when filming a wedding is for the couple to feel comfortable and relaxed so we can capture their true personalities, gestures, and interactions on camera. In order to capture genuine moments, we have a photojournalistic approach, acting as a “fly on the wall” for the majority of the day, only tweaking or posing when needed. We never want any of your shots to feel forced, staged, fake, or overly directed.

We work seamlessly alongside your photographer, making sure both teams are able to get beautiful shots, without getting in each others' way or making you feel overwhelmed.

My favorite compliment is when couples tell us “I totally forgot you were even there!” or “How did you get those shots? We didn't even notice you filming!”

Being in front of our camera should always be a fun, painless, enjoyable experience.

Our mission is to capture your day beautifully, naturally, and thoroughly, while being unobtrusive, courteous, and friendly to all of your other vendors, guests, and wedding party.

FREQUENTLY ASKED QUESTIONS

Here's a list of questions I'd recommend asking at your wedding videography consultation:

- How many years have you been shooting weddings?
- We'd love to get to know you personally, too! What are your hobbies/interests?
- What timeline would you recommend for our wedding day?
- How long after the wedding can we expect to receive the video(s)?
- Do we receive the usage rights to the video(s)?
- What types of edited video options do you offer?
- When are the payments due?
- What forms of payment do you accept?
- Do you have Liability Insurance?
- Do you charge a travel fee?
- Will you be the videographer shooting our wedding?
- What would happen if you got sick/injured on our wedding day?
- What would the next step be to book you??

To schedule a consultation, just reach out and let me know what dates/times you're available and we can set up a video call or phone call (or an in-person meeting if you're in the Dutchess County area)! lin@linpernelle.com
