HIGHLIGHT YOUR HOME'S HISTORY

"I love old architecture — it's why I fell in love with this house," says Toronto-based designer Allison Willson of her Edwardian semi. So when renovating, she made sure to maintain as much of its original charm as she could. In her living room, coved plaster ceilings were recreated, ceiling medallions were reapplied and stained glass windows were added in — the perfect backdrop for Allison's classic-meets-contemporary furnishings.
