Why Us?

These events offer exciting opportunities for participants to showcase their skills with bareback horses, saddle broncs, and bucking bulls, while also allowing for flexibility through side pots where competitors can mix and match animals and partners of any age. This inclusive event welcomes non-rider-friendly animals, ensuring that everyone can join in the fun, regardless of their experience level. With a variety of classes available, competitors can engage in top-tier events that cater to all abilities, and there's no requirement for animals to be registered with any breed association making it accessible for all. The side pots provide additional chances to win, offering larger prizes and more opportunities beyond the main class. The judging ideology is designed to be fair and transparent, a challenge option is available and re-bucks are available for any animal that bucks. We strive to ensure that animals are handled quickly and safely throughout the competition. We are committed to continually enhancing the event, adding new features to keep the excitement alive, all while focusing on bringing back the joy and financial rewards of rodeo.
