

DUMPSTER POLICY

We want to ensure your experience with our dumpster service as smooth as possible. Here are a few helpful tips to ensure everything goes well:

PLACING LARGER ITEMS

If you have larger items like furniture, feel free to set them beside the dumpster to save space inside for smaller items. Please note that there may be an additional charge for these items.

SCRAP METAL

For scrap metal items such as BBQ grills, swing sets, lawn mowers, or washers/dryers, please place them beside the dumpster. Please call to arrange a special pick-up for these items, and an additional charge may apply.

PROHIBITED ITEMS

To keep things running smoothly and safely, some items are not allowed in the dumpster. Placing these items in the dumpster will result in a fee:

- Liquid paint or stains (We can only accept paint if it's solid and dried.)
- Household chemicals like pesticides, acids, fuels, automotive fluids, pool chemicals, and poisons
- Concrete, whether in powder or solid form
- Bricks, tiles, rocks, stones, and dirt
- E-waste, including TVs, computers, monitors, and appliances
- Roofing materials
- Tires

DUMPSTER PLACEMENT

Please keep the dumpster where it was originally placed, with the front of the container facing out and clear for our driver to access. It's important that the dumpster remains on solid, level ground. If our driver needs to return for access or to remove the dumpster from mud, there may be an extra charge.
