22 Bateman Lane, Caledon

When Staci Edwards of Staci Edwards Interior Design was brought in to create a master bathroom in this newly renovated home in ‘The Beach’, a laid-back, charming neighbourhood in Toronto, she saw an opportunity to create a spa-like environment while maintaining the character of the home.

**STACI EDWARDS**, is the owner of her Toronto-based interior design firm with clients in both Canada and the U.S. and her work is nationally published and award-winning. She encourages her clients to live easier and more beautiful lives by creating well designed, welcoming spaces, that are both livable and luxurious.

# BRINGING *the Spa* ENVIRONMENT HOME

Article by **Staci Edwards Design**

The home was originally a four-bedroom, one-bathroom home, and to better suit the client's needs was converted to a three-bedroom, two-bathroom home. The homeowners approached Staci after receiving plans from their architect and asked if she could take those plans to finish off the design. Working with the clients, Staci and her team made some slight changes to the original plan as well as selecting all of the interior finishes and items. The focus was on making it a beautiful space for the lady of the house to enjoy. After spending a few years sharing a bathroom with her husband and two sons, the client was very excited to finally have a calm, beautiful, spa-like space to enjoy – and that's exactly what she got.

Inspired by a kitchen Staci had previously designed, a custom vanity was built and sprayed in a rich blue hue to add a pop of colour. By keeping the main finishes in the space light and airy, the bathroom feels very calm and spa-like. The marble tile, gold fixtures, and beautiful decorative lighting really helped to elevate the space to feel luxurious.

Staci and her team were thrilled with how the space turned out and were happy their clients loved it as much as they did.

“LIFE IS BUSY, AND WE MAY NOT ALWAYS HAVE THE TIME, OR OPPORTUNITY, TO VISIT THE SPA, EXPLAINED STACI. **WHY NOT BRING THE SPA ENVIRONMENT HOME, SO YOU CAN ENJOY FEELING SPECIAL EVERY DAY?**”

## CLIENT TESTIMONIAL

We worked with Staci and her team for our second-floor renovation. They provided us with the interior design of two bathrooms, selecting all the finishes and making a few small changes to what our Architect originally provided us with: window treatments and area rugs.

### WE LOVE THE END RESULT AND COULDN'T BE HAPPIER!

We live in an older home in The Beach area of Toronto, and Staci was sure to keep certain elements to maintain the character of the home, while also incorporating modern elements throughout the space to give it a fresh update.

Staci and her team were great to work with. They were always available to answer our calls and emails as the renovation process was underway, which helped us feel more at ease throughout the stressful time of a major renovation.

Overall, we couldn't be more pleased with the interior design work that Staci and her team provided for us, and we know that we are going to enjoy what they have done for years to come!

This project was a lovely home in the Beaches area of Toronto. The home was originally a 4-bedroom, 1-bathroom home and it's now a 3-bedroom, 2-bathroom home, as that better suited our client's needs. They approached me after receiving plans from their architect and we took those plans to finish off the design. We made some slight changes to the plan itself along the way to better suit our client's needs, as well as selected all of the interior finishes and items. For this master bathroom, specifically we focused on making it a beautiful space for the lady of the house to enjoy. She had spent a few years sharing a bathroom with her husband and two sons, so she was very excited to finally have a calm, beautiful, spa-like space to enjoy – And that is exactly what we gave her!

By keeping the main finishes in the space light and airy this bathroom feels very calm and spa-like. The marble tile, gold fixtures, and beautiful decorative lighting really elevate the space to feel luxurious. Inspired by a kitchen we designed, our client really wanted a blue vanity, so we designed this custom vanity and had it sprayed in our favourite rich blue hue to add a pop of colour. We are thrilled with how this space turned out and are happy our clients love it as much as we do.
