Introduction

Your wedding day is a celebration of your love and commitment to each other, and it should be a day that is full of joy, laughter, and fun. If you're looking to plan a wedding that is relaxed, informal, and full of personality, then you're in the right place.

In this article, we'll share our top 10 tips for creating a fun and memorable wedding day that truly reflects who you are as a couple. From trusting your suppliers to ditching the idea of wedding perfection, we've got you covered.

Tip 1: Trusting Your Suppliers

Tip 1: Trust Your Suppliers

One of the most important things you can do when planning your wedding is to find and choose reliable and trustworthy suppliers. Your wedding photographer, caterer, florist, and other vendors will play a crucial role in making your day a success.

Make sure to do your research, read reviews, and once you have them booked take the expertise they have in their field to make your wedding day extra awesome! When you have suppliers you can trust, you'll feel more relaxed and confident on your wedding day.

Tip 2: Ditch the Idea of Wedding Perfection

Tip 2: Ditch the Idea of Wedding Perfection

Trying to achieve perfection on your wedding day can lead to unnecessary stress and anxiety. Instead, embrace imperfection and focus on what really matters – your love for each other.

Don't worry if things don't go exactly as planned; the most important thing is that you're getting married to the person you love.

Tip 3: Make Time Together as a Couple

Tip 3: Making Time Together as a Couple

Your wedding day will be a whirlwind of activity, and it's easy to get caught up in the chaos. However, it's important to take some time alone with your partner to soak in the experience and enjoy each other's company.

Whether it's a few stolen moments after the ceremony or a private photoshoot in the evening, make sure to prioritise time together.

Tip 4: Have a Pre- Wedding Photoshoot

Tip 4: Have a Pre-Wedding Photoshoot

A pre-wedding photoshoot is a great way to get comfortable in front of the camera, create some beautiful memories and build a relationship with your photographer before the big day.

If you're planning a wedding in Yorkshire, consider a pre-wedding photoshoot in some of the stunning locations around the region. As your wedding photographer we can help you find the perfect spot.

Tip 5: Have an Evening Portrait Session

Tip 5: Have an Evening Portrait Session

An evening portrait session can be a fantastic way to capture some extra special and fun photographs together. The soft, golden light of sunset provides a beautiful backdrop for stunning photos.

It also ties well with Tip 3 where it allows time to be together as a couple. Grab a drink and go for it. You won't regret it!

Tip 6: Have an Unplugged Wedding Ceremony

Tip 6: Have an Unplugged Wedding Ceremony

An unplugged wedding ceremony can help you and your guests be more present and engaged in the moment.

By asking your guests to put away their phones and cameras, you'll create a more intimate and meaningful atmosphere.

This will also ensure that we are able to capture the best possible photos of your ceremony.

Tip 7: Be Brave

Tip 7: Be Brave

Your wedding day can be overwhelming, but it's important to be brave and embrace your authentic selves.

Whether it's choosing a bold colour for your flowers, writing your own vows, or heading out in the rain for some photos.

Don't be afraid to take risks because it WILL pay off on in the long run.

Tip 8: Don't Forget Your Partner

Tip 8: Don't Forget Your Partner

The spotlight is often given to one-half of a couple when it comes to wedding day preparations, it's important to make sure the other half has a comfortable and relaxing space to get ready in as well.

Whether it's a luxury hotel room or a designated spacious area at the wedding venue, creating a comfortable space for them can help set the tone for a fun and enjoyable day.

Tip 9: Avoid Long Speeches

Tip 9: Avoid Long Speeches

Long speeches can be a real buzzkill at a wedding reception.

To keep the energy high and the mood light, consider setting a time limit for speeches or limiting the number of speakers.

This will help to keep the focus on the celebration and ensure that everyone has a good time.

Tip 10: Make Sure Your Photographer Fits Your Vibe

Tip 10: Make Sure Your Photographer Fits Your Vibe

A wedding photographer plays a crucial role in capturing the essence of your wedding day.

It's important to choose a photographer who not only has the technical skills to capture beautiful photos but also understands your vision and personality as a couple.

Book a photographer who makes you feel comfortable and at ease, and whose style and approach align with your own. And of course, That's us!

**Brucey Bonus Tip: Embrace Wet
Weather on Your Wedding Day**

Brucey Bonus Tip: Embrace Wet Weather on Your Wedding Day

While many couples hope for perfect weather on their wedding day, sometimes Mother Nature has other plans. However, with a little preparation and flexibility, you can embrace wet weather and make the most of your special day.

Consider having a backup plan in case of rain, such as a tent or indoor option. If you're set on an outdoor ceremony or reception, make sure to have umbrellas on hand for you and your guests. You can even make the rain a part of your wedding day photoshoot by having fun with colourful umbrellas or embracing the natural beauty of a rainy day.

If you're worried about your wedding dress getting wet, consider wearing wellies or choosing a dress that can withstand a little rain. Remember, your wedding day is about celebrating your love with your partner and your loved ones, rain or shine. With a positive attitude and a little creativity, you can make your wedding day unforgettable, even if it does happen to rain.
