ARCHITECTURAL DIGEST
EXCELLENCE IN DESIGN | CHARLOTTE

CLOCKWISE FROM FAR LEFT:

A recent project in Fort Mill marries a couple's diverse preferences for glamorous detailing and rustic charm. The kitchen's waterfall island and polished, luxe finishes are grounded in dark tiling and characterful timber cabinetry. Stone and metal architectural elements impart a sense of stepping into a European country getaway. Elegance takes center stage in the stunning piano room.

JOY BY DESIGN

Designer Sara Brennan and team elevate life at home into an experience to fall in love with

If the conception of a romantic space conjures images of frills and lace, interior designer Sara Brennan's signature *romantic transitional* aesthetic will pleasantly surprise. Warmly inviting, impeccably bespoke, and anchored in elegant surfaces and finishes, her welcoming luxury spaces embrace the families who live in them.

"Romantic doesn't have to mean girly and pink," Brennan laughs. "It's about

creating your story in your space and loving the life you're living there."

As the CEO and principal interior designer of Sara Lynn Brennan Interiors, this award-winning designer's uniquely client-focused ethos and passion for creating family-friendly and livable spaces have positioned her team as sought-after by homeowners in search of design services from furnishings and luxury styling to comprehensive remodeling and new

construction projects.

"We offer a host of packages to suit most design needs and tailor those to spaces to truly reflect who our clients are," Brennan says. "We're here to help you tell your story."

2023 was a record-breaking year for the firm, a trend set to continue with their newly opened All Things Home, a 1200-plus-square-foot showroom where clients and retail customers can come for inspiration, education, and to shop a curated collection of furnishings, cabinetry, decor, and more. It's an extension of the Sara Lynn Brennan Interiors team's all-encompassing commitment to a beautifully honed

design process experience that elevates and informs her clients' plans for their homes.

"Your home should be a joyful, nurturing environment," Brennan says. "We want the process to be one that lifts you up and is just as enjoyable."
