LISA Thee

A GLOBALLY RECOGNIZED THOUGHT LEADER AT THE INTERSECTION OF ARTIFICIAL INTELLIGENCE, CAREER TRANSFORMATION, AND ETHICAL TECHNOLOGY

With over two decades of experience, Lisa has dedicated her career to driving innovation and empowering individuals and organizations to thrive in an ever-changing world.

Lisa's passion for harnessing the potential of AI to create positive change led her to become a sought-after international keynote speaker, inspiring audiences around the globe with her insights and vision. She has been honored with numerous awards, including the "2023 International Impact Book Award" for her groundbreaking book, "Go! Reboot Your Career in 90 Days", 2023 Gold Viddy award for Long Form Series "Navigating Abroad", and she is a Gold award winner for the 2023 Executive of the Year and Silver winner for 2024 Lifetime Achievement - Stevie Awards for Women in Business for her AI Ethics consulting firm.

As the CEO and Co-Founder of Minor Guard, an AI software company dedicated to online safety, Lisa combines her technical expertise with a commitment to ethical AI practices. She is also known for her work with leading healthcare and technology organizations, including Microsoft, Meta, and University of California 's Center for Digital Healthcare Innovation. She is a professor for Leading in the Age of AI for University of Michigan Engineering.

Lisa's TEDx talk, "Bringing Light To Dark Places Online: Disrupting Human Trafficking Using AI," exemplifies her dedication to using technology for social good. She is a respected advisory board member and board director for organizations at the forefront of technology, ethics, and human rights.
