

MY STORY

A social media project from Cancer GPS

The cancer journey can be lonely, and its impact on peoples' lives is sometimes overlooked or misunderstood. But stories are powerful. Through them, we learn from others' experiences, and we find that we are not alone in ours.

About My Story from Cancer GPS

My Story from Cancer GPS presents the stories of those on the cancer journey—whether patient, survivor, family, friend, caregiver, or healthcare worker—in their own words.

Every week, a new story and image is released across Cancer GPS's social media. You are invited to embrace and share these posts. Simply use the hashtag **#MyStoryCancerGPS** or visit one of the GPS sites below.

Through the first-person accounts of *My Story*, we share this journey together, creating a world with a better understanding of this life-altering disease and of the personal strength of each person on the journey. ❖

If you would like to share your story, please contact Cancer GPS at mdewitt@cancergps.org.

About Cancer GPS

Cancer GPS provides directions for cancer patients, survivors, and caregivers through mentors, cancer guide videos for specific cancers, monthly educational programs, a Spiritual Journey program, and the My Story project. Cancer GPS (Guide Posts of Strength) is a 501(c) 3 nonprofit organization. ❖

Patra: survivor, nurse, volunteer, and My Story participant
