LOVE NOTES

Enchanting Melodies! Best decision ever!

From the first interaction, Dot was very responsive and professional. She promptly replied to our inquiry, answering all of our questions with thoroughness and clarity. From discussing our musical preferences to accommodating specific song request. She is warm and friendly and it was a pleasure to have her play at our wedding

She arrived well-prepared and punctual and integrated well with all our other vendors. When things did not go exactly to plan, Dot was extremely accommodating and was able to improvise. She really elevated our wedding and brought grace and elegance to our procession, recession and cocktail hour. If you are considering a harpist for your big day, strongly consider her.

If I could give more stars I would!! Dorothy is an angel and an absolutely incredible harpist!!

When I was planning my wedding, my mind was all over the place and I had completely forgotten to get entertainment for my wedding reception. It was a WEEK before my wedding day and I started looking for something elegant that would WOW my guests during the reception dinner. I enquired online for a couple things but they were all mediocre. And then Dorothy came to my rescue!! I watched her videos and FELL IN LOVE!!

She's so incredibly talented, I've heard other harpists but no one plays so beautifully like her! Dorothy had an amazing set list but she also gave me options to make changes if I wanted. I also told her I had a colour theme for my wedding (lilac/lavender) and she even came in a beautiful lilac dress to match the theme! Dorothy really went above and beyond! All of my wedding guests were truly impressed with her and everyone was taking videos of her whilst she played beautifully on her harp.

I would 100000% recommend Dorothy again and again to absolutely everyone!

FAQ

WHAT SHOULD I PROVIDE FOR A HARPIST?

The harp is a very delicate instrument, and is therefore highly sensitive to changes in humidity and temperature. Please see below for specific requirements:

◆ Outdoor events

If you are planning an outdoor event, be sure to have a backup plan in case of rain or snow as harps will not be played outside during rain and winter.

Additionally, a shade or shelter is required to protect the harp from direct sunlight and possible rain.

◆ A flat and hard surface

There should be a flat and hard surface for the harp and harpist.

◆ Easily accessible performance space

My harp is 185 cm and weighs 90 pounds. For this reason, a step-free or accessible lift to the performance space is highly preferable. If there are stairs to reach the venue and the performance space, please be sure to let me know prior to booking.
