BRIGHTER FUTURES TOGETHER

TIA heads to Ontario University Fair in Downtown Toronto

On Saturday, October 5th, TIA took a trip to Toronto for the annual Ontario University Fair. This is a unique opportunity for students from all over Ontario to meet with counsellors from all Ontario universities. Ms. Jennifer and Ms. Dana took all grade 12 students and some curious grade 11 students downtown. Every university had their own table with literature, pamphlets, booklets, and representatives. University application season has started! Best of luck to our Grade 12s.

BRIGHTER FUTURES TOGETHER

Guidance Sessions with Gr.12s

On October 8th, 9th, and 10th, Vice Principal Bakri held guidance sessions for all grade 12 students. These one-on-one sessions were held to better understand students' future academic and career goals, to start the university application process, to review midterm marks, and to review program prerequisites. Application season has started, and we check in with our students to make sure that they are on track to meet their goals. The OUAC application deadline will be on January 15th 2025.

BRIGHTER FUTURES TOGETHER

Queen's University Visit

On Tuesday, October 29th, Rei from Queens University visited Toronto International Academy. He gave a detailed presentation about Queens, its programs, scholarships, and campus life. TIA students received Queens brochures and asked questions. At TIA, we try to get a variety of university visits, and we actively help students choose a university program that is right for them.

BRIGHTER FUTURES TOGETHER

Brock University Visit

On Wednesday, October 30th, Laurel from Brock University visited Toronto International Academy, offering an in-depth presentation on Brock's programs, scholarships, and campus experience. Students at TIA received informational brochures and engaged in a Q&A session with Laurel. At TIA, we strive to host a variety of university representatives to help our students explore their options and find the program that aligns best with their future goals.

Halloween 2024

TIA held an exceptional 2024 Halloween event at school. Students and staff came in with costumes. The highlight of the day was a pumpkin carving contest, where students had the chance to demonstrate their creativity. The technology class also created Halloween videos that were shown to the school. The student council brought pumpkins, chocolates, a Halloween music playlist, and prizes.
