I further request and authorize the taking of dental x-rays as may be considered necessary to diagnose and/or treat my child's dental problem. I will allow photographs to be taken of my child or child's teeth for diagnostic or educational purposes. I understand that dental treatment for children includes efforts to guide their behaviour by helping them understand the treatment in terms appropriate for their age. Drs. Graham, Lam, Palmer, Ray, Nijjar, Holownia, Kwan and/or Choudhary will provide an environment that will help your child learn to cooperate during treatment including praise, explanations, and demonstrations of procedures and instruments. The usual and most frequent risks or complications occurring from dental operative treatment include but are not limited to, the possibility of pain or discomfort during the treatment, swelling, infection, bleeding, injury to adjacent teeth and surrounding tissue, development of a temporomandibular joint disorder, temporary or permanent numbness, and allergic reactions.
