**CUSTOMER PREP SHEET FOR:**  
**Bedbugs**

***BEFORE TREATMENT***

Remove bed sheets, mattress covers, etc. before the treatment. Launder in hot water before replacing them after the treatment has been completed.

Remove items in dressers and nightstands and remove from the bedrooms.

Remove any clutter in bedrooms to make application easier.

Get all small articles off of the floor in the entire house, basement, under beds, and closets. (Example: toys, newspapers, clothes, boxes, etc.)

Put all CD's, DVD's, Cassettes, Play Station Games, etc. into their cases. Do not leave them lay out.

Fish tanks should have the air system unplugged. Cover the tank with towels.

Empty and cover all pet water and food dishes.

Vacuum carpets and under cushions of all upholstered furniture. Also vacuum all seams of couch, recliners, mattresses, and box springs (**DISPOSE OF VACUUM BAG**). Mop all floor areas including linoleum, hardwood and concrete surfaces.

Treatment DOES NOT harm houseplants.

Windows should be closed for 3-5 hours.

Vacate house for 3-5 hours. (People & Pets)

Please remove all outlet covers.

Remove everything from closets.

Remove curtains from bedrooms and living rooms and take to wash.

***AFTER TREATMENT***

Re-sweep/shop-vac seams of bed and other areas. It is crucial dead bedbugs are cleaned up with high infestations there are plenty of carcasses. (**DISPOSE OF VACCUM BAG**)

Open windows and allow house to air out if any odor is noticeable.

If humidity is high, you may want to run a dehumidifier or air conditioner in the house to help eliminate any persisting odor.

DO NOT clean baseboards and trim work for as long as possible. If any white dust or visible residues are apparent after treatment, this should be cleaned up with a vacuum cleaner, dust cloth or damp disposable rag.

You may continue to see bedbugs up to 3 weeks after the treatment due to the hatching process. During this time, you may experience a hatch and have a period that bedbug populations reoccur. This should subside quickly after the bedbugs come in contact with the treatment.
