

## Hydraulic Anti-Wear XL Oils

Product Application:

Beacon Hydraulic Anti-Wear XL Oils are premium, heavy duty, high detergent, ashless "zinc free" fluids developed to meet the requirements of high output hydraulic systems. They are designed for use in high pressure or high-speed vane and gear-type hydraulic pumps, rotary vane-type compressors, machine tools and circulating systems.

They were developed to exceed the exacting specifications of modern hydraulic systems utilizing high pressure, high output pumps while excelling at providing the best lubrication and operating medium for the precise requirements of close tolerance servo-valves and the ultraprecision of computer numerical controlled or "cnc" machines.

Package Size:

Bulk, Drums, Pails

Meets or Exceeds the following Specifications:

Arburg Injection Molding Bosch Rexroth RDE 90245 Bosch Rexroth RA & RE 90220, 90221 HOCNF Norway - NEMS, Black Hagglunds-Denison HF-0, HF-1, HF-2 Vickers M-2952-S, 35VQ-25 Cincinnati Machine, P-68, P-69, P-70 US Steel 127, 128 Racine Vane Pumps- Variable Volume U.S. Fish and Wildlife Aquatic Toxicity LC-50 DIN 51524-2:2017-06 DIN 51524-3:2017-06 ISO L-HM, (ISO 11158, 2009) Ortlingshaus-Werke GmbH ON 9.2.19 Eaton E-FDGN-TB002-E Husky ZF TE-ML 04K ASTM D6158

Features and Advantages:

\*Environmentally Responsible

\*Ability to maintain proper viscosity at high temperatures

\*Excellent oxidation and rust protection

\*Excellent anti-foaming properties

\*Applications where cross-contamination of hydraulic fluids and coolants can occur

\*Thin oil-film corrosion protection
