How Do I Enroll?

Our certification and diploma courses are accredited by the AADP and AAMA. Our Quantum Botanicals courses are additionally accredited by the BFVEA.

SCHOOL PHILOSOPHY

School of Natural Medicine was founded in 2007 on the principles of pure Naturopathy, which incorporates a holistic approach to the treatment and prevention of mind-body imbalances that lead to disease.

We seek to educate students in an authentic system of natural medicine that can be traced to the teachings of Stoicism in ancient Greece, and that was incorporated into a system of medicine by Hippocrates, widely regarded as the father of modern medicine.

The first principle of Natural Medicine, as stated in the Hippocratic Oath, is 'Do No Harm.'

This core foundation is integrated with advances in the fields of nutrition, psychoneuroimmunology, heart-brain coherence, epigenetics, phytochemical research, and holistic anatomy and physiology.

Our Natural Physician Diploma programme is in alignment with the World Health Organisation definition and guidelines for Naturopaths; a definition that was created through the contributions of more than 274 reviewers, including experts and national authorities, as well as professionals and non-governmental agencies.

Although there are schools that medicalise Naturopathy, in order to gain funding from supplement and product companies, the School of Natural Medicine is committed to teaching pure Naturopathy, without affiliation with special interests.

Naturopathy is a profession that is practiced throughout the world, with Eastern and Western Europe, Scandinavia, Australia, New Zealand, South Africa, Canada, Russia, India and the United States having the highest numbers of practicing naturopaths.

Naturopathy is classified as a traditional medicine and has evolved, since ancient times, as a deeply rooted part of European natural medicinal systems.

From Europe, Naturopathy has found its way, with the founding fathers of the United States and the Commonwealth, to all parts of the world settled or governed by those of European descent.

Naturopathy is a discipline of accumulated knowledge of effective natural therapies, diet, herbs and lifestyle *in practice*, and does not have a single originator. It is a part of our heritage.

We invite you to join us on one of our certification or diploma courses, and begin your journey toward creating a life out of what you love.

This comprehensive online certification course takes you on an inspirational and experiential journey through the art and science of 'food as medicine.'

Each lesson covers a facet of healing diets indepth, and creative, experiential and research based assignments help students to integrate this knowledge for effective practice and personal self healing.

The course curriculum includes cleansing and health building, transition diets, food for different life phases, a deep study of nutrients and their health benefits, organ and system cleanses, support for detox symptoms, food choices and the environment, and the politics of the food industry.

Studies are personally mentored by school tutors Bonny Casel and Alexandra Axe, who guide students as they develop consultation skills and lay the foundation for their healing diets practice.

"To begin with I was very nervous, but I have found that once I begin the consultation, the course has prepared me so well that I know exactly what to do and the consultation flies by with ease. I really enjoy working with people 1-1 and I find their lives fascinating! I am well prepared to ask the right questions and give good, effective recommendations from the well put together course. I would definitely recommend this course to anyone and I don't think I could have chosen a better school to study with. It has been perfect for me on all levels and I feel so much love and gratitude for my teachers. Thank you so much!!!"

QUANTUM BOTANICALS Online Course

The Quantum Botanical online diploma course offers a loving and mind expanding exploration of the plant world, the nature of consciousness and quantum physics, opening your heart and mind in profound ways that will change the way you perceive healing, personal evolution and the patient-practitioner relationship.

Journey through more than 100 years of scientific discovery that has experimentally and clinically proven that consciousness precedes matter, that thoughts and emotions initiate molecular/biological function and that the fundamental nature of matter is vibrational.

This study is philosophically explored alongside ancient systems of plant medicine and man's evolution within the field of plant consciousness.

The course goes on to explore the fractal relationship between consciousness, the mental, emotional and physical body, and the plant world, offering profound, practical approaches to initiate healing (new emergent behaviours) with resonant plant frequencies.

Learn to apply the fundamental of vibrational medicine through heart-brain coherence, righthemisphere processing and healing processes combined with the therapeutic use of flower essences and essential oils. The 38 Bach Flower Essences are explored in-depth, as is elemental energetics.

Learn how to cleanse receptor sites on cells, erase incorrect information from cellular memory/DNA and restore correct information

with essential oil chemistry. This approach releases trauma held in the body, allowing for clearer perception and more peaceful, present approach to life. Trauma lives on in genes through generations if information isn't erased and reprogrammed. The Quantum Botanicals online course provides numerous approaches to heal our relationship with the past, and increase our awareness and clarity in the present, providing the foundation for the journey of individuation and evolution of consciousness.

We also offer the Quantum Botanicals Advanced diploma course for those who with to integrate diet and herbal medicine for the complete system of Quantum Botanicals that we teach.

School of Natural Medicine UK offers one of the most comprehensive Iridology course in the world. Written by Farida Sharan ND, a leading pioneer of Iridology and author of the classic textbook 'Iridology - A Complete Guide,' 'Dictionary of Iridology,' and 'Iridology Colouring Book,' This course will provide you with the knowledge needed to guide effective holistic health programs.

Iridology is a form of analysis that examines the iris structure, iris markings and colours, and what is known as 'iris constitutional type,' to determine ageing pathways in the body.

Iridology does not diagnose disease, in the contemporary medical sense. What is does do is more meaningful as it shows you how to not become ill in the first place, how you are likely to develop disease if your lifestyle, diet and other influences play into your inherent weaknesses and, if you are ill, shows where to focus treatment to best support your own body's capacity to heal.

Through studying the iris, an Iridologist determines the inherent strength of each body system, current level of toxicity and stress in body tissues and, combined with a thorough understanding of holistic anatomy and physiology, and a detailed case history, identifies the system, organ and gland weakness pattern that manifests as your individual pathway to disease.

This information is used to guide preventative and self healing programs that incorporate education, purification and regeneration and preventative care.

Iridology also provides a uniquely effective way to explore the interior world of body, mind and emotions, along with their dynamic relationships; relationships that are at the core of psychoneuroimmunology. Traditional medicine has long recognised the relationship between emotional and mental states, and physical health and wellbeing. The modern medical model is also beginning to acknowledge mind-body dynamics, prompted by science such as Candace Pert, who discovered the link between emotions and cellular/molecular function.

Iridology can identify emotional and mental tendencies and their physical manifestations as a cohesive whole, so practitioners of holistic medicine are increasingly drawn to this valuable too for investigating the continuum of client health on all levels.

"My practice is located in Alamo, Texas, in the USA, which is very influenced by Mexican American culture. Many of my clients are Latin American and suffer from illnesses related to poor diet. I integrate Iridology with herbal medicine and educate them about healthy eating habits. Learning about Iridology and Naturopathy in the School of Natural Medicine Iridology online course changed my life and it has helped me to understand and heal myself and others. This work is my passion."

Gretta Garza - Iridology online course graduate 2018

The online Naturopathy course integrates the study of Naturopathy, Healing Diets, Herbal Medicine and Iridology.

Naturopathy is a systemic approach to holistic natural medicine that recognises that the cause and cure of disease lies within the whole person; physical, mental, emotional and spiritual.

Naturopathy works with natural laws of living through cleansing and health building, with the support of diet, lifestyle, herbal medicine, essential oils, emotional healing, supportive naturopathic therapies for acute and chronic conditions, fasting, healing processes, exercise, breathing, loving thoughts, awareness of relationships, connection with nature and more.

In this course you will discover the value of cause and effect as you learn how to increase health and vitality, and to achieve balance, harmony and well being. Your clients will not only achieve relief of symptoms, they will achieve true independent health, as you educate them in preventative living, longevity and conscious respect in daily life.

In addition to academic study, the Naturopathy studies emphasis experiential self healing, with a focus on understanding and personal experience, rather than rote memorisation, so that each student becomes an authentic guide for others.

Online courses can be studied individually for certification, and are applied in full if at a later date you wish to continue your education to diploma level.

The Natural Physician online course offers the integrated study of the complete system of Natural Medicine that we teach.

All five online courses (Healing Diets Coach, Herbal Medicine, Quantum Botanicals, Iridology and Naturopathy) are included in Natural Physician studies, encompassing a full range of healing modalities for mind-body healing.

The full spectrum of plant medicine is taught indepth: diet, culinary and medicinal herbs, essential oils and flower essences. Students learn a wide range of supportive Naturopathic therapies and embark on a comprehensive study of Iridology; a form of iris analysis that provides information about systemic strengths and weaknesses, mind-body dynamics, hemisphere dominance and processing, inherent constitution strengths and weaknesses and more, providing the foundation for creating highly effective, personalised self healing programs.

The Natural Physician online course combines training in pure Naturopathy with the latest research in diet and nutrition, phytonutrients, psychoneuroimmunology, epigentics, heartbrain coherence, vibrational medicine, quantum physics, chaos theory and fractal progression.

Each student is personally mentored by Bonny Casel as they progress through their studies and support is given by email and/or Skype as needed. This is a comprehensive professional course that provides a superb foundation for effective practice.

I would like to thank you Bonny for helping me through this journey of life. I loved the Healing Diets course and you have been a great inspirational teacher for me. I wouldn't have been where I am today without you. - Sahana Rao

Thank you so much Bonny for such fantastic feedback. It's really helpful to have these comments and I feel even more motivated to dive deeper into this work and immerse!! I love the course!!! And it's wonderful to have you there knowing I can ask questions. So appreciated.

- Kirsty Lewis

The Healing Diets Course is fantastic! I am enjoying it so much! Thank you for making it so cosy, delicious and informative. - Adriano Mangogna

I am already gaining a good understanding of how the combination of all four subject matter, ie. Iridology, Healing Diets, Naturopathy and Herbology, give a really good 360 degree perspective on health and healing, which is sorely needed in this day and time. - Geoff Ravalier

It has been a fantastic process and course of study and I have been very inspired by you and your wisdom. Thank you, thank you, thank you Bonny - Jayne Doyle

These assignments don't really reflect the enormous teachings that I am getting out of just being a part of this course. I'm so grateful for the opportunity to transform and challenge old habits.

- Claire Harvey

WHAT QUALIFICATION WILL I RECEIVE ON COMPLETION OF AN ONLINE COURSE?

The School of Natural Medicine awards the following certifications upon completion of online studies.

Healing Diets Coach (HDC) Iridology Consultant (IrC) Herbal Medicine Consultant (HMC) Quantum Botanicals Therapist (QBT) Quantum Botanicals Advanced Therapist (QBTA) Naturopathy Consultant (NC) Natural Physician Consultant (NPhC)

Each online course is accredited by the AADP and further qualifies you as a board certified Holistic Health Practitioner. You will also be entitled to professional membership and reduced practice insurance with the Complimentary Medicine Association.

The Quantum Botanicals Advanced diploma course is also accredited by BFVEA (British Flower and Vibrational Essence Association)

CAN I BEGIN WITH AN ONLINE COURSE AND DECIDE AT A LATER DATE IF I WOULD LIKE TO ATTEND THE IMMERSION TRAININGS FOR MY DIPLOMA?

Yes! You are welcome to begin with online certification training and, if at a later date, you would like to continue your studies towards one or more of our diplomas by attending Immersion Trainings and undertaking the Self Healing module, then your online studies will be applied in full towards diploma training.

HOW LONG DOES IT TAKE TO COMPLETE AN ONLINE COURSE?

Each online course is a one year course if you commit to a study schedule of 7-8 hours a week. There is an 18 month window for completion, with the additional six months added to your time for completion so that you can create a study schedule that fits in with personal and professional commitments, and allows time for the unexpected.

HOW DO I GET HELP IF I HAVE A QUESTION?

Help with questions is readily available by contacting the school by email. If the questions are more complex, then Bonny will set up a time to speak with you on Skype. You can also arrange a time to speak with Bonny Casel by telephone. Email the school to schedule a time.

HOW IS THE ONLINE COURSE STUDY STRUCTURED?

There are 12 lessons in each online course (Iridology has 14 lessons), each with assignments, and lessons range from 40 and 60 pages of detailed study material, with additional links, video and/or recommended reading, depending on the lesson.

Assignments combine reading, research and writing, with creative projects and experiential self healing. Assignments for each lesson are sent together as a group for marking and feedback. If your assignments do not reach the standard required, then you are given the opportunity to develop your work and resubmit your assignments.

IS THERE A DEADLINE FOR COMPLETING AN ONLINE COURSE?

The online courses are each a one year course, however an additional 6 months is provided so that students can create a study schedule that fits in well with their other commitments and to allow time for the unexpected. If a student has not sent in an assignment in six months, the student file is placed on hold for a further six months before being closed.

ARE THE CERTIFICATION COURSES ACCREDITED?

Each of our courses are accredited and you can view details of accreditation on our website by following <u>this</u> <u>link</u>.

ARE THE CERTIFICATION COURSES ACCREDITED INTERNATIONALLY?

Each country has its own requirements and there is no accreditation available that is 'international.'

Most countries do not regulate the practice of natural medicine as long as you are not diagnosing and treating disease, and you can freely practice without requiring board examinations or professional memberships, although we do encourage graduates to join professional bodies.

Some countries do require an examination in their own language, for example in Germany there is an examination required for all practitioners who make health recommendations, regardless of your qualifications. Each graduate must educate themselves about the requirements in their own country and abide by them. School of Natural Medicine graduates practice all over the world and we have never had a graduate who has been unable to practice and/or teach in their home country.

WILL I BE ABLE TO OBTAIN PRACTICE INSURANCE UPON GRADUATION?

School of Natural Medicine graduates can obtain block insurance from Balens or Westminster Insurance Company in the UK or with an insurance company in your own country. Professional memberships also frequently offer reduced fee insurance options.

I HAVE FURTHER QUESTIONS. HOW DO I REACH THE SCHOOL TO DISCUSS THE COURSES?

You can reach the school directly by email: <u>info@schoolofnaturalmedicine.com</u>

To arrange a Skype call, email the school to make an appointment. The school Skype address is PureHealthSNM. You can also arrange a time to speak with Bonny Casel by telephone. Email the school to schedule a time.

WHEN CAN I BEGIN MY STUDIES?

As each student is individually mentored, you can begin your studies as soon as you ready!

HOW DO I ENROLL?

1

The first step towards enrolling is to explore the school website and prospectus. Once you have a feel for our courses, get in touch to share about yourself and your goals, and to ask any questions that you have. We can also arrange a time for a Skype or telephone conversation to discuss your goals for study and your questions about our courses.

2

When you are ready to enrol you can download the application form from the school website at schoolofnaturalmedicine.com/enrol. You will need to enter your personal details, check the box next to the course of your choice and, if applicable, the immersion(s) that you wish to enrol in, check the box for your payment method preference (see below) and then choose either the time-payment or discounted payment in full option. Complete the application by signing and dating at the end of page two.

Page three of the application form is the data consent form and this must be completed and signed as well. The data consent is for the school to create and maintain your student file and to store your completed assignments.

3

Write a few words about yourself, your inspiration for study and your future goals, then submit this along with your completed application and data consent form, a scan/photo of your photo ID and a personal photo for your student file. You can email your completed application to info@schoolofnaturalmedicine.com.

4

There are several payment options. You can pay directly through the school website for both time payment and payment in full options.

Time-payments are processed by <u>partial.ly</u>, a time-payment portal that you access through the enrolment page of our website at <u>www.schoolofnaturalmedicine.com/enrol</u>.

If paying in full, you can make your payment through the enrolment page of our website and you also have the option of receiving a PayPal invoice (+3 % PayPal fee), paying by direct deposit if using a UK account or wiring funds if you are an international student. For wiring funds, please contact the school for banking details.

5

Once your complete application has been received and you have made your payment, then you will receive your course materials and you can begin!
