# FAQ

How far in advance should I book a consultation?

*It's best to book as early as possible, especially if you need help refining your overall design or booking vendors. However, sometimes I can fit in last-minute consultation calls depending on my schedule.*

What if I want to book additional time?

*You can always book additional sessions or upgrade to a package if you need ongoing support.*

Can I use my time for logistics and planning help rather than design?

*Absolutely! While I specialize in wedding design and styling, I can also assist with timeline creation, vendor recommendations, and planning logistics.*

What do I need to prepare before our consultation?

*After booking, you'll fill out a pre-consultation questionnaire so I can tailor my recommendations to your needs. Bringing inspiration photos, questions, or specific concerns to the call is also helpful!*

Do you offer refunds?

*Due to the time and expertise involved in each consultation, all bookings are final and non-refundable. However, you may reschedule your booked consultation call with advance notice.*

How do I know which package I need?

*The best package for you depends on where you are in your wedding planning journey and the level of support you need. If you're unsure which package will best serve your needs, I'd be happy to help you decide! I'm also open to creating custom packages if you're looking for something more specific.*
