Memories of the Heart

Investing in the right photographic experience is often a difficult task, especially if you are on a budget....

Your day will go by in haze....the painstakingly planned details of your wedding will quickly fade into your past.

Each of my brides have gushed after viewing their gallery....

"I can barely remember anything, thank you for capturing all these moments." - Maria

"It's like reliving the day...I missed so much! Thank you!" - Kayla

When your wedding day is over and your guests have long gone, your images and videos will be treasures for decades to come. This special gathering of family and friends come but once in your life. Don't let the fear of expense deprive you of these priceless moments!

Investing \$3,000, \$5,000, \$8,000 or even \$10,000 in photography & even videography ensures the preservation of memories that will last through the ups & downs of life's journey.

There is always time, energy and money enough for what matters most to you:)

*we are so
honored*

Welcome to the SUMMER BEAR PHOTOGRAPHY family! We wanted to first say thank you so much for choosing us to capture your big day. We know you have many photographer choices, and we are truly honored that you have decided to work with us!

No doubt your wedding will be one of the most beautiful and significant moments for you as a couple, and we want to be sure that you enjoy every part of the experience.

Please read through this Wedding Prep Guide to find out more about us and what to expect from us on your wedding day. We are so excited for your upcoming wedding, and look forward to documenting this important day in your lives.

“
*I love her, and that's the
beginning and end of
everything.*

”

- F SCOTT FITZGERALD

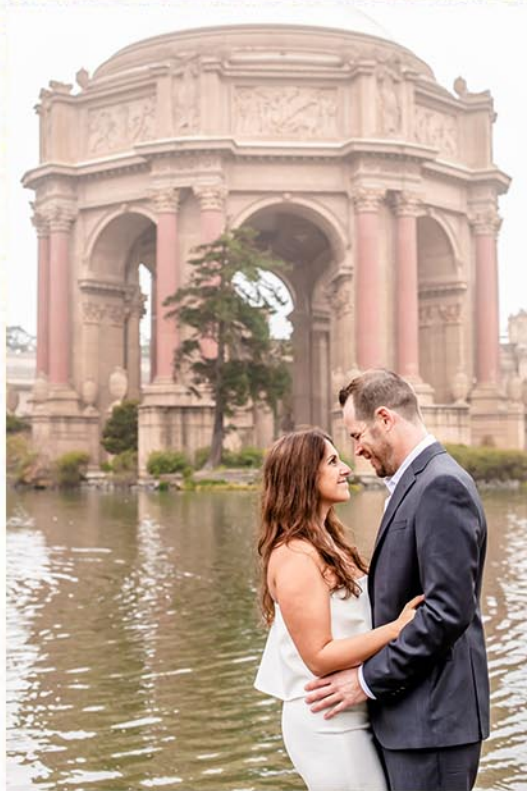

ABOUT THE *experience*

We are passionate about weddings, and we feel so lucky that this is our profession. As wedding photographers, we get to meet the most amazing couples and spend our days capturing beautiful moments and memories for them.

On your wedding day, you can expect to have fun and enjoy the entire experience. We know weddings can be stressful at times, but rest assured that photography is not something you'll need to worry about. You are in good hands with us, and we will work to capture all of the big - and small - things that you want to remember about your day.

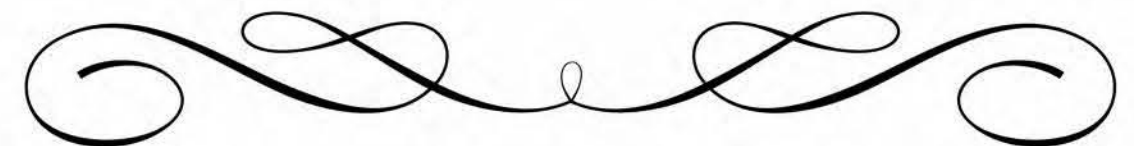

your engagement session

We love engagement sessions! We feel that having an engagement session is very important, as it allows us all to get to know each other before your big day. During your session, we'll have an opportunity to learn more about you as a couple, and you two will also get to know us and experience shooting with us prior to the wedding day.

Our shooting style is very relaxed and casual, so during your engagement session, we will simply start walking, and when something catches our eye, we will pop over and take some shots.

Don't know how to pose? Don't worry – we will help give direction so you don't have to stress about that. I will send you a separate Engagement style guide to help you., then simply come with a good attitude, and be ready to have some fun!

first look

A question we often here is “do you recommend that we do a first look?” This is something that has become increasingly popular, and first look images can be very special. Choosing to do, or not do, a first look is a personal decision, and it is up to each couple to decide if this is something you would like to do. We can say, however, that almost all of our couples do choose to do a first look, as they find it very beneficial.

Here are the top reasons why our couples choose to do a first look:

- It is a private, special moment between only you two, without hundreds of eyes watching.
- Seeing each other earlier in the day helps to release any stress, nerves, and anxiety before the ceremony.
- Your ‘walking down the aisle moment’ is still just as special and emotional, as a first look does not take away from that moment.
- A first look will allow for more time & locations for photos of you as a couple, and will allow you to enjoy more of your day (for example, it can give you the ability to partake in your cocktail hour).

“
we love first looks because it
allows so much time for
you to be together, before
all the excitement sweeps
you away!
”

A photograph of a wedding couple embracing on a golf course. The bride is wearing a white lace-trimmed dress and the groom is in a dark suit. They are standing on a green lawn with a blurred background of trees and a distant town under a soft, hazy sky.

shot list

A lot of our wedding couples ask us if we need a “shot list” for their wedding day. We understand that you have a lot of important things you want captured, but you can trust that we will capture all of those for you. The only “list” that we ask for is the family portrait list. Beyond portraits, we will plan to capture all of the typical/standard shots throughout your wedding day – first kiss, first dance, groom with each groomsman, etc. However if there are any “special” shots that we should know about, beyond these traditional images, then you are welcome to let us know. For example, if you will have “something old” from your great grandma on the day of the wedding, please let us know so that we can be sure to capture a photo of that for you.

PHOTOGRAPHY

Timeline

Every wedding is unique, so we will create a custom photography timeline that is tailored specifically to you. We will work together with you and go over the details of your event to provide you with the most efficient use of your time with us.

Here are some of the contributing factors and some things we will discuss as we are creating your photography timeline:

- Would you like some getting ready photos?
- Key Event Times – Mainly ceremony and reception start and end times.
- Are you doing a first look?
- When is the last big reception event? (Cake cutting, garter etc...)

If you already have a draft of a wedding event timeline, please send that over as soon as possible. We will review it and make sure that there is adequate time provided for your photography, and ensure that your wedding day is laid out in a smooth & efficient manner. We will input everything into the loop app, which is perfect for making sure everyone is on the same page!

FORMAL *portraits*

Portraits are certainly an important part of your wedding day, and we want to be sure that we capture all of the significant people in your life who will be present. As we mentioned, this is the only 'list' that we ask you to provide. Please reference our "Family Portrait List" form that we will send over in another email.

We ask for this list so that we can be as efficient as possible on the wedding day and not lose any valuable time by having to look for family members. Please send your list over to us no later than 2 weeks before the wedding.

“

*When I saw you I fell
in love, and you smiled
because you knew.*

”

- ARRIGO BOITO

relax

and enjoy

Your wedding photography should never hinder your fun or take away from the experience of your wedding day. Every step along the way should be relaxing and stress-free for you.

Our goal is to help you relax and have fun on your big day. We can assure you that you will enjoy the experience - so relax, be yourselves, and get ready for the best day of your lives!

The little things

We understand just how much time and effort you have put into making this day so special. We also know that sometimes the most memorable parts of a wedding day can be found in the little details. We will work to capture all of these special details that you have included in your day.

Here are a few specific things we wanted to mention about your details:

BRIDAL ACCESSORIES: Please have all of your “bridal details” in a spot ready for us during the getting ready shots. This includes anything special that you’ll want photos of – shoes, jewelry, garter, etc.

RECEPTION DETAILS: The best time to take detail shots of the room set-up is the 30 minutes or so before the ceremony is going to start. At this point we typically are done with all pre-ceremony shots and we will allow the bridal party a little time to chat with arriving guests, or just relax. So we ask that you please make sure to work with your coordinator or whoever is setting up the reception, so that it is ready to go at this time. Of course this only works if the reception site is at same location as the ceremony; if not, we will do the detail shots as soon as we get to the reception venue, during the cocktail hour.

viewing your images

After your wedding day, we know that the next biggest question on your mind will be: "When do we get to see our photos?"

You will receive your complete wedding gallery in just 4 weeks! We know you can't wait to see your images, and we can't wait to share them with you as well. We promise, it will be worth the wait.

- The day after the wedding, you will see a sneak peek emailed to you in our beautiful gallery just for you. to get a glimpse into the awesomeness and tide you over until you return from your honeymoon.
 - Once back from your honeymoon, we will be ready to lift your "back to the real world" spirits with your wedding being posted on our blog.
 - We will then continually review the entire set of photos and edit all the best images that will tell the story of your beginnings for years to come!
 - When your gallery is ready, we will send you an email announcement with the gallery link and password to view and download your images. Plus a mini gallery with about 150 images for your guests to download. z
-

Kayla & Josh

She makes the whole process fun and made everyone feel very comfortable in front of the camera. We will definitely be recommending her to any family members and friends who need a photographer in the future, she was awesome!"SHE MAKES THE WHOLE PROCESS FUN

your album

Without a doubt, the best way to enjoy your wedding images is through your custom, professionally-designed wedding album. When you open your wedding album you will be taken right back through each moment of your big day, in a cohesive storytelling manner. We take the initial lead in designing your album so that you have nothing at all to stress about, and then you can simply review and make any revisions to the design to ensure it is designed to perfection. Choose from beautiful Crystal, Leather, Linen or Vinyl Covers. These are not consumer-grade albums that can easily be damaged; your wedding images deserve the best, and that is what we provide. Our albums are hand-crafted with rigid layflat pages that can withstand even spills from future children or pets. Quite simply, our albums are made to last a lifetime, so that you can cherish and share your wedding story for generations to come!

Treasure the moments

One thing we hear over and over from our clients is how quickly the wedding day flies by. You've spent months planning this day, and when it arrives, it often becomes a blur in the midst of all of the excitement.

Our encouragement to you is to try to stop and treasure the moments throughout the day. Enjoy each moment, and remember that we are there as your storytellers, to capture all of those things that you will want to look back on and remember. You can enjoy your day - we will tell your story.
